My dear Son

Your very welcome letter arrived night before last, and I take this early opportunity to answer it as I am expecting a chance to send to the office tomorrow, I was very glad to hear that you were well, It is a great blessing I trust I feel in a degree sensible of the fact, Yes while so many are cut down with a stroke, and others are suffering, we are spared in a measure, O that we all may feel suitably grateful for such mercies, But the wise man has said that Prosperity is set over against the day of adversity, on prosperity be glad but in adversity consider, I hope we shall all dearly instruct, & hope the word all heed that injunction, I thank you for your long letter, and to get all the little items is what I like for I can seem to know bet

I am glad to hear you have so comfortable a bed at present, for it makes me feel some easier when I retire to rest to know you are not really suffering, and I don't think there has been one night since any of you left but that I have thought of you when I laid me down to rest, and it has been my continual desire that ~~these~~ these events may be for our best good that we may in future prize our blessing higher. And I am glad also to learn that there is no truth in that Normans stories, It gives me great comfort to know that you are all trying to do right, that you have the good will of your fellow soldiers & officers led for Dr. Eastman I am not surprised to hear of his meanness and I hope you will not suffer from his uncerice, but it is better to suffer wrong than ~~to~~ ~~be~~ ~~in~~ ~~the~~ ~~way~~ ~~of~~ ~~it~~, ~~and~~ ~~it~~ ~~is~~ ~~never~~ ~~to~~ ~~suffer~~ ~~wrong~~ than ~~do~~ ~~wrong~~, We called to see Capt. I sent some things to J last week
and if I could have known in season how
it would be I should have sent you some
things extra, yet I hope you will get some
of what I have sent, Maybe it will get
there before this, but if it doesn't I want
to tell you about the sirup, I boiled it
down to have it as thick as I could and
it may be sugar when it gets there but
heat it, and add a little water and it
will be sirup again, But as you say I
hope you will be at home before long &
stay at home with your family and go to
ferning for I think there is enough of
it to do, and it pays well at present
stock is very high, and produce of all
kinds, Your father once his cider the
past week, made eleven barrels, sold
nine for 10 & per barrel, and two of ^{natural brinj} apples

5 I rec'd a letter from Elmer to day
he is well, and one from Margaret
last week, you hear from Stampstead
oftener than I do no doubt, so you
know all about them there —
Another thing I will tell you father
has some cherry wood he has engaged for
5 dollars a cord, wood is high too, He
wants to get some cut but it is dif-
ficult to find any one to do it, H & J
are intending to go to school this win-
ter so they cant do it, George wants
to go to learn a trade next spring
and if he does I hope some of you
will come and take his place, for
there is plenty of work to be done
I believe I have to tell you
every thing I can think of, but
perhaps I shall think of something
more to tell you next time, at any
rate I will try and do my best

I will send you some papers, and
when you write again tell me what
you have for reading matters, and if
you have religious services in your
department of my dear boy don't
never forget that the fear of the
Lord is the beginning of wisdom
If I had only had the means I
should have sent some books to
you & to my that box, but hope you
will try to improve your leisure hours
in some profitable way —

Well it is getting late so I will
close hoping I shall hear from you
again before long, Good night
