I should not be surprised if he had  
tried to get the command<sup>m</sup> of the fourth  
this opinion is not based upon any  
thing that I have heard, it is mere  
conjecture on my part. I saw in  
a paper more than a month ago that  
your Regt was ordered to Port Royal and  
on the strength of that I sent you three  
papers directed to Port Royal if you received  
them you will find the views of the Pres-  
ident on the slavery question plainly  
expressed in them. I send you along

Among the N.H. items in the Journal you will find me relating to your Regt. In regard to the emancipation act you inquire about. it is simply the carrying out

of the confiscation act. slaves being property, are embraced in that act and the government not wishing to hold slaves as property, declared all taken under that act free. In regard to the late proclamation of the President I suppose some will think he was influenced by the outside pressure of the abolitionists but I do not think so, the fear of foreign intervention in my opinion was one reason for the step at least, perhaps the rebel government would have emancipated the slaves as a last resort, and thereby secured the acknowledgement of the confederacy by the European powers.

The general impression here is that slavery must cease with the war. a large class of men of all parties not in sympathy with the abolitionists, slavery must cease with the war. a large class of men of all parties not in sympathy with the abolitionists.

in the history of the world, let it be  
wiped out so that our posterity will  
not have to enact over again the bloody  
scenes that are now transpiring. it is war  
to the knife and that to the hilt. severe  
measures must be resorted to: both  
sides are plucky and don't mean to  
give up. it looks now like a war of extermi-  
-nation. it is heart sickning to think of  
the misery it has caused all over the country.  
we shall undoubtedly succeed in the end  
but with a fearful loss of life and treasure.

The Dr can tell you all the news of int-  
-rest in town better than I can write it.

Julia sends her love to you and would be  
pleased to receive a few lines from you  
<sup>when you write to me</sup>

The present month has been very  
pleasant, with but little rain and the  
ground is quite dry and parched, but  
it has rained some today. The crops  
are very good hay abundant and cheap  
corn not so heavy as last year but sound  
and good. fruit is very plenty and  
prices very low on account of the war  
soots per barrel is all I can get for my  
best-fall apples delivered at the depot  
labors are scarce and wages high which  
with the high prices of groceries & clothing
