UNIVERSITY OF NEW HAMPSHIRE, DURHAM, NEW HAMPSHIRE, JANUARY 6, 1939.

PRICE, THREE CENTS

Dr. Evans Receives Morrison Award For Biology Paper

New Hampshire Instructor And Other Learned Men Honored at Annual Dinner

The Morrison prize of \$200 was awarded to Dr. F. Gaynor Evans of the University of New Hampshire at the annual dinner meeting of the New York Academy of Sciences, December 14, for the best paper in the field of natural science. The prize-winning paper, "The Morphology and Functional Evolution of the Atlas-Axis Complex from Fish to Mammals", was written by Dr. Evans as thesis work for his doctorate degree last June.

Funds for the prize were donated by A. Cressy Morrison, New York chemist and president of the academy. Mr. Morrison was re-elected to the office at the meeting. Other prizes were presented to Professor H. A. Beth, physicist of Cornell University and to Dr. Norwood C. Thornton of the Boyce Thompson Institute.

Dr. Evans was born December 7, 1907, in La Mars Isle, Iowa. He graduated from Coe College, Cedar Rapids, in 1931, and received his M.A. from Columbia University in 1932. At the present time he is an instructor in Anatomy in the Zoology department. Previous to his appointment to the University faculty he taught at Coe College and at the College of the City of New York.

During the summers of 1935 and 1936 Dr. Evans travelled over much of the Navajo country of Arizona and Utah as a member of the biology staff of the Rainbow Bridge Monument Valley expedition and made a two hundred mile trip down the San Juan and Colorado rivers. On these expeditions he collected mammals, reptiles, and amphibians for the American Museum of Natural History.

In 1937 Dr. Evans made a four thousand mile trip through Mexico to collect reptiles for the American Museum of Natural History.

Dr. Evans married Miss Harriet E. Terry, a graduate of Smith College, last September. Both of them are very much pleased with Durham, the students, and the University.

Dr. L. C. Fogg, director of the unique Isles of Shoals laboratory, said, "Due to the fact that the zoology department has been active in developing various opportunities in varied fields of endeavor, this recognition that has come to one of its members is a source of pride. Because Dr. Evans has been doing voluntary research in comparative anatomy, he is peculiarly fitted for work in vertebrate morphology and evolution."

Progress Shown in Work on Buildings

The work on the many buildings in progress of completion or alteration on the campus continued through the Christmas holidays.

During vacation, complete new equipment and floors were installed in the Commons kitchens. The basement of Smith Hall is being turned into a new recreation room. In Congreve one living-room was enlarged and a small sitting-room and a student's room were eliminated.

The work on Nesmith is proceeding and the second floor of the library is undergoing alterations.

Athletic Letters Given Fall Teams

Frosh Numerals Awarded; Football, Cross Country Managers Also Appointed

The letter and numeral awards for the fall sports were announced last week by Carl Lundholm, Acting Director of Athletics. At the same time, selection of managers for the 1939 season was also made known. The appointments are as follows: Football—Paul Raynes, varsity; Alfred Pioli, freshman; Philip Michie and Richard Winn, junior managers. Cross Country—William Happny, varsity; George H. Guild, freshman; Robert Nolan and James Heald, junior managers.

Letter and numeral awards:

Letters in Varsity Football, 1938

Paul E. Horne, Capt., Mathew J. Flaherty, Burton I. Mitchell, Thomas F.

(Continued on page 3)

Mary Holmes and Douglas Hunter Are Engaged

Announcement has been received of the engagement of Miss Mary Holmes, daughter of Dr. Arthur D. Holmes of Winchester, Mass., to Mr. Douglas Hunter, son of Roy D. Hunter of Claremont. Both Miss Holmes and Hunter were graduated from the University with the class of 1936; Miss Holmes was a member of Alpha Xi Delta sorority and Mr. Hunter belonged to Theta Chi fraternity.

Miss Holmes attended Katherine Gibbs secretarial school after graduation and spent the last summer in Europe. Mr. Hunter attended Tuck School of business administration at Dartmouth, after graduating from the University.

No definite date is known for the wedding, but it is reported that it will take place this spring.

Carnival Schedule Nears Completion

One-act Play, Torchlight Parade and Figure-skating Feature Winter Week-end

The Annual Winter Carnival is now less than a month away and the plans are rapidly nearing completion. Three of the outstanding events are the one-act play, torchlight parade and pageant.

The play, "Good-night Please", written by James L. Daggett will be a Mask and Dagger presentation under the direction of Doris LeClair with the following students as a cast:

Meredith Whitehouse.....Jack Kirk
Burton, the Valet.....Richard Nelson
Vivian, the daughter.....Barbara Clisham
Lucy, the wife.....Eleanor Lee
Basil, his brother-in-law.....Charles Craig
CookGenevieve Lessard
Mr. McWinkle, his vice-pres.....
.....Monty Theros

Edward Moreland Discusses Tenn. Valley Authority

Dean of Engineering at M.I.T. Proves T.V.A. Unfair Standard of Utility Rates

Dr. Edward L. Moreland, Dean of Engineering of the Massachusetts Institute of Technology, spoke last Wednesday evening in the fourth of the regular lectures and concerts. His subject was "TVA, the Government Yardstick of Power". Dr. Moreland who is an authority in economics and business finance as well as an engineer, has studied the Tennessee Valley Authority and has testified as to its benefits and disadvantages in both the Chattanooga trial, in which the public utilities endeavored to prove the unconstitutionality of the TVA, and in the official three-day government inquiry. Although he has been employed by many of the utilities affected by the TVA, Dr. Moreland attempted to remain unbiased in his criticism of the project.

The question of utility control, stated the dean, had become so serious that the government felt that they should make use of the white elephant Mussel Shoals project as a laboratory to test the production of electricity in order to determine whether the utilities were charging exorbitant rates for their power. President Roosevelt had never liked the utilities, and was always in favor of their abolition, since state control had failed.

The purposes of the TVA were stated as navigation improvements, industrial development, soil conservation, and "incidental" power developments. This "incidental" power—over seven billion kilowatt hours per year—is equal to all of that produced in the entire New England states. The utilities affected by this competition drew the TVA into the Chattanooga district court not so much to try to prove it unconstitutional as to bring the situation to the attention of the public, with the hope of diverting public sympathy in their direction.

The main topic of Dr. Moreland's lecture was the fairness of using the TVA as a standard for the other electric companies in the region. The first objection to its use as a yardstick comes in that it does not sell power retail as do the others, but only wholesale, with correspondingly lower rates. But the two paramount questions which arise for judgment are: Do the TVA power rates cover all the costs of production and are there other costs which utilities must bear that the TVA does not?

Relative to the first, it is known that

(Continued on page 4)

Bureau of Appointments

At the present time there is less than 50 per cent of the senior class registered at the Bureau. We have interviews with representatives of nationally known companies scheduled for the next several months and those seniors who are not registered will not have an opportunity to interview these representatives who are seeking men for permanent employment after graduation.

We suggest that seniors register as soon as possible so that they may take advantage of these interviews.

Eugene K. Auerbach, Director.

Five Year School of Nursing to Be Established at University

The University of New Hampshire and the Elliot hospital of Manchester have combined to give students a five-year curriculum in nursing. The course will be inaugurated in September.

The course of study was outlined by a joint committee of the University faculty and hospital staff members. Two of the five years will be spent at the University and the remaining three at the hospital. Physical education, English, zoology, chemistry, history, and bacteriology will be studied during the freshman and sophomore years.

After their second year the students who are qualified will continue their studies at the hospital. While there they will study surgery, medicine, hygiene, X-ray, district nursing, contagious diseases, operating room, and dietetics. During their junior year courses in sociology and psychology will be offered at the hospital by members of the University faculty.

At the end of the senior year a comprehensive examination set, scored by a selected group of the faculty and the faculty of a reputable medical school,

will be given to all students.

The hospital will choose an official to administer phases of the curriculum and the administration of the program on the part of the University will be given to the department of zoology.

The idea has been in evolution for more than two years now and in June 1938 a joint conference was held with the staff of Elliot hospital. A tentative program was drawn up and submitted to the faculty and trustees and the hospital governing board for approval.

Durham News

A former zoology student and mayoralty candidate of a few years ago with his wife, also a New Hampshire graduate, revisited Durham Tuesday, January 3. Mr. and Mrs. James Bannon were on their way back to McGill University in Montreal where Mr. Bannon hopes to receive his M. D. degree a year from next June. Mrs. Bannon is the former Dorothea Lowder, and both she and her husband were prominent in their undergraduate days.

Dr. Raymond Perrault was here recently and sent his best wishes to the Zoology Department.

Barbara Fischer, a graduate in the class of '37 and a member of Theta Upsilon, died on December 23. Previous to her death she was Assistant Librarian in the Medford Public Library.

Miss Priscilla Richards of Smith College visited with her father, Dr. Alfred Richards of Madbury road, over the holidays.

Miss Barbara Ritzman of Boston, and Mr. Thomas Ritzman of Harvard were with their parents, Professor and Mrs. Ernest Ritzman, during their vacations.

Alexander Butler of Harvard was home with his father, Dr. Armond Butler of Bagdad Road.

(Continued on page 2)

Franklin Theatre Shows WPA Film

In addition to the regular show on Sunday night, January 8, the Franklin Theatre will present a Works Progress Administration film as a pictorial record of the New England hurricane, and the work done in restoration of stricken areas. Its title, "Shock Troops of Disaster" refers to the great armies of the Red Cross, Coast Guard, the CCC and other emergency units, and their work in conjunction with the hurricane. The picture outlines the birth of the great wind down in the West Indies, its growth as it follows the coast, and its death in northern Maine and Canada.

N.H. Prof Conducts Gov't. Survey

Professor Walter T. Ackerman of the Agricultural Engineering department has been granted sabbatical leave, beginning January 1, to conduct a survey of agricultural engineering work in Eastern United States. Professor Ackerman, who is one of the four men selected by the Department of Agriculture in Washington to conduct a nation-wide survey of rural electrification, will collect data on modern engineering methods which he hopes will be of practical application in New Hampshire. After the survey, he will engage in research work for an advanced degree at Iowa State College returning to the University by mid-summer.

Professor Ackerman has developed the work in agricultural engineering at the University for the past 14 years, specializing in the rural electrification field. He recently worked on a survey of rural electrification in Indiana, Ohio, and Kentucky, for the Farm Credit Administration in Washington.

Professor Ackerman is a graduate of Connecticut Agricultural college and Ohio State. He taught at both colleges and at Virginia Polytechnic Institute before coming to New Hampshire.

Sidney Shurcliff Shows Ski Movie

The Outing club, at 8:00 P. M. on Monday evening, January 16, will present in the Women's gym, the nationally known ski picture, "Ski America First", with Sidney N. Shurcliff as lecturer.

Mr. Shurcliff is a Harvard graduate and a professional landscape architect. Nine years ago he entered the lecture field with his famous film, "Jungle Islands of the South Seas", followed by "The Restoration of Colonial Williamsburg, Va."

Mr. Shurcliff is, himself, a ski enthusiast and made a tour of the country a year ago taking the moving pictures, which with excellent continuity, have been blended into the film "Ski America First."

The film is entirely in color and was taken with the newest type of photographic equipment, using telephoto lenses for action shots so that the figure remains constantly in the field of the camera rather than whizzing past as in amateur ski films. Special tripods were also used to eliminate vibration, the result being a truly professional film.

As the title suggests, the film includes the skiing centers over the entire country and several of the more important skiing events. Several of the high spots are Sun Valley, Berthoud Pass, Colorado; Tuckerman's Ravine, Ski Jumping; Mt. Rainer, Aspen, Colorado; Yosemite; New England Skiing; Steamboat Springs, Colorado.

DURHAM, N. H., JAN. 6, 1939

WOMEN'S RULES

Women's rules will never be completely satisfactory to all concerned and must inevitably be a favorite topic for student criticism. It is evident that some regulations must be enforced, but it is to the interest of all that these rules keep pace with the practices of the age and serve to promote the best interests of those concerned.

The Executive Council of the Association of Women Students has made several excellent changes in the rules and have done much to make them more workable. There are still, however, certain rules that seem needlessly severe. An example is the rule forbidding freshmen women to be with men during the afternoon except on Saturday and Sunday. What serious harm can come to a freshman woman walking up from downtown with a man? Would her studies be too severely damaged or her morals hopelessly destroyed if she enjoyed a soda downtown in the company of a man?

Another rule that imposes rather unnecessary hardship on the women students is the one compelling them to return from the second show by ten forty-five. Frequently the picture is not over at this time and they are compelled to miss the last few minutes of the show. If they stay, it usually means a desperate dash for the dorm with the threat of punishment awaiting if they do not make the deadline. Would it not be more sensible to extend the time until eleven, or until the show is over.

Another complaint that is frequently heard is that the punishments imposed do not vary sufficiently for the types of violations committed.

It is obvious to all that the present rules are being violated almost as much as they are being adhered to by the women students. Would not a few liberal rules strictly enforced be more effective than a strict set of rules that are only partially obeyed? The continued violations that are inevitable under the present system are destructive to the morale of the university and has a harmful effect upon the girls who make it a practice to disregard regulations.

We realize that the formulation and enforcement of these rules is a difficult and thankless task, but it is one which must be faced intelligently and courageously.

It would be a great step forward if these rules were made workable and then strictly enforced. They should be continually reviewed to seek alterations which would make them more effective in serving their purpose.

It might do well if a committee were chosen from each dormitory and sorority to meet occasionally and consider the rules. Any changes suggested could then be submitted for consideration. In this way a larger group would be given the chance to express themselves and any grievance real or imaginary could be fully considered. Any injustice would then be the fault of every woman student who did not show sufficient interest to express herself.

CUTS

We hope that the proposition of giving the seniors unlimited cuts during the second semester of this year will be given favorable consideration. This is an opportunity to test out the contention that students at New Hampshire possess as much judgment and are as capable of running their own lives as are the students in the more progressive Universities which have adopted the practice of unlimited cuts.

Let us hope that the faculty will not allow personal considerations to enter into their decision on this question. It will mean more work for some of them, but it should be a challenge to their ability as teachers to make their classes worth attending.

"VIC" PARTIES

The committee on Student Organizations should be praised for their judgment in granting eleven o'clock "vic" parties on Saturday nights. It is a definite step forward in improving the social life of the University, and another aid in making life on the campus more attractive over the week-ends.

RECENT EVENTS

by George Edson

Urging Missourians to "pioneer the nation out of this last frontier of racial prejudice and superstition", the University of Missouri undergraduate paper has invited Lloyd Gaines, the Negro youth whose case was a blow against Jim-Crowism in education, to become a student at the school.

Gaines was originally barred from the school, a State institution, on the ground that he was a Negro. But a recent United States Supreme Court decision held that the ban was a violation of the 14th Amendment and that Gaines must be admitted.

The "Missouri Student", which expresses the undergraduate view-point as distinguished from the views of the reactionary state officials in charge of the school, said:

"Our actions in accepting him (Gaines) will define our status as Americans. Our Pilgrim, continental, Gettysburg tradition is freedom and racial equality for all. It is our cue to pioneer the nation out of this last frontier of racial prejudice and superstition."

This position of the above college newspaper is a stinging repudiation of the action of the state officials, who have refused to accept the decision of the U. S. Supreme Court to admit Gaines as a law student in the university.

But the case in Missouri is not ended, for the school officials have already filed a petition with the U. S. Supreme Court urging it to "reconsider" its decision and to decide against the Constitutional rights of the Negro. Time will alone be able to tell whether the editors of a college newspaper are right in asking Gaines to join their school, or whether the highest court in the land will listen to the officials of the school and decide against a Negro who wishes to further his education.

SHURCLIFF SHOWS

(Continued from page 1)

rado; the Rockies in Winter and the Dartmouth-Washington Ski Meet.

Last winter this film was amazingly received in all of the larger cities and by countless clubs and organizations throughout the country, playing at admission fees of a dollar and more. Again this year it promises to be even more popular. Among the many clubs, colleges and other organizations which have engaged this entertainment are the Wadsworth Antehneum, Hartford, Conn.; the National Geographic Society, Columbia University; Institute of Arts and Sciences, Brooklyn, N. Y.; Harvard Club, Boston; Appalachian Mountain Club, Boston; Cornell University; Brown University; Washington University; and others. Several of these organizations had repeat showings.

Newman Club Hears

Hon. P. J. Moynihan

The Honorable Patrick J. Moynihan, head of the Commission on Administration and Finance of the Commonwealth of Massachusetts, and former Commissioner of Public Welfare for the city of Boston, will speak to the Newman club Monday evening, January 9, at 7:30 in the Commons Trophy room. He will talk on "Modern Problems in Social Welfare."

The Sociology club members have been invited to attend as special guests of the Newman club.

Mr. John J. Adams of Exeter, State Deputy of the Knights of Columbus, will introduce Mr. Moynihan, who is past State Deputy of the K. of C. in Massachusetts.

The general public will be cordially welcome to this meeting.

University Profs Attend Meetings

Several members of the faculty of the University of New Hampshire attended various conferences during Christmas vacation.

Albion R. Hodgdon of the Botany Department, Leon G. Glover of the Entomology Department and Russell P. Hager of the Zoology Department went as delegates to the National Conference of the Association for the Advancement of Science in Richmond, Virginia. The conference was held from December 26 to December 31, inclusive, and consisted of meetings and lectures in the different departments. The local instructors made the trip together and attended the meetings of their respective fields.

A meeting of the Modern Language Association was held in New York last week from December 28 to December 30, and teachers of the Modern Languages, namely German, French, English, and Spanish were entertained at the Hotel Pennsylvania in that city while attending the meetings. Carroll S. Towle, Sylvester H. Bingham, Albert Buffington, Clifford S. Parker and James T. Schoolcraft of the University of New Hampshire were present at their division meetings.

With the Outing Club

There will be a business meeting of the entire membership of the Outing Club on Monday evening, January 9, in James Hall, Room 301. President Archie Dalton requests that all members be present as questions of vital importance to them will be discussed. Immediately after the meeting there will be another meeting of the heelers, including those who wish to heel for the Blue Circle. **Membership cards must be shown at the door to gain admittance to this meeting.**

There will be a week-end ski trip to Franconia Notch on Saturday and Sunday, January 14-15. The group will probably attend a barn dance at Easton on Saturday evening and devote most of the time the day following to skiing in the Franconia region. The wagon and cars will leave Ballard Hall promptly at 1:00 P. M. Saturday and will return early Sunday evening.

DURHAM NEWS

(Continued from page 1)

Walter Jenkins, a graduate of the University, and a former music teacher in Durham, was a visitor in town on New Year's Day. He is now in charge of the Music Department at Bennett College for Women in Milford, New York.

The engagement of Ruth Dodge of Durham and Kenneth Norris has been announced. Both graduated from the University with the class of '37, and Mr. Norris is now studying for his master's degree at Yale.

Professor and Mrs. Scudder entertained at a party on New Year's Eve.

Professor and Mrs. Clifton Parker were at home for a tea for their friends on New Year's Day.

The Lions Club entertained guests at the Tower Tavern on December 19. Dick Daland was in charge of the arrangements.

Miss Nancy Powers, Home Demonstration Agent at large, was the guest of Mr. and Mrs. Lucien Lisabeth in Lebanon. Both Mr. and Mrs. Lisabeth were active in athletics while at N. H. U. Mrs. Lisabeth is the former Natalie Manier.

Dr. Arthur Jones recently returned from a visit to friends in Cambridge, Mass.

Campus Notes

EPISCOPALIANS

The Holy Communion will be celebrated on Sunday, January 8 at 8:30 A. M. at the Community Church. The Rev. Charles W. F. Smith of Christ Church, Exeter will officiate.

REFUGEE NEWS

Pledges and contributions for the German Student Refugee Fund up to Christmas vacation, amounted to \$240.39. Pledges continue to be collected this week.

GRANITE NOTICE

The members of the Student Christian Movement are urged to come to Morrill hall promptly at 9:30 on Friday evening for the picture for the Granite.

ALPHA ZETA

There will be an open meeting of Alpha Zeta on Monday, January 9, at 7:30 P. M. at Morrill hall, Room 304. Professor Ford S. Prince will be the guest speaker. Everyone is cordially welcome.

During the recent vacation Edwin J. Wheeler was the delegate to represent Granite Chapter at the 18th Biennial Conclave of Alpha Zeta held at Atlantic City, New Jersey. Walter Woods also attended the Conclave.

4-H CLUB

Next Monday night at 7:30 there will be a meeting of the 4-H Club in the Commons Organization room. There will be an entertainment arranged by a committee composed of Frances Taylor, Sylvia Skidmore, Carl Sanderson, and Walter Bodwell. All present and former members of the club are cordially invited.

Mr. and Mrs. Conroy spent the holidays in Newport, R. I.

Norman Whippen, 4-H Club Agent and Howard Willis, County Agricultural Agent, both of Claremont, were seriously injured in an auto accident in Northwood while on their way to attend the Extension Service Meeting here in Durham. They are patients at the Margaret Pillsbury Hospital in Concord.

A child was recently born to Mr. and Mrs. Howard Hanley. Mrs. Hanley is the former Ruth Libbey, the original sponsor of the Outing Club's Horse Show.

Mr. Lewis Jordan, a former member of the Military Science Department here, has been transferred from Panama to Plattsburg.

Confident Wildcats Meet Hawk Quintet

Weary but confident, the New Hampshire Wildcats meet St. Anselm in the Lewis Cage tomorrow evening. New Hampshire's record is not impressive but they have improved with each game and they are about due to break into the victory column. On the other hand St. Anselm is more or less untried to date and whether they have a winning team or not remains to be decided.

The Wildcats played their best game of the season yesterday at Rhode Island and the Rams have one of the best quintets in New England. Chet Jaworsky, the Rams' star forward is at the present time among the nation's leading point scorers; his best record to date being the 44 points he scored against Arnold the first of the week.

The starting lineup will be the same as that that started the Rhode Island game. Wally Webb will start at center, Lou Cryans and Ted Plante at the forwards and Herb Adams and either Pierre Boy or Mat Flaherty at the guards. There will also be a freshman game before the varsity contest.

'Round the Campus

by Esther Barrett

About a week before the University of New Hampshire announced its new curriculum designed for girls planning to be nurses, an article appeared in the "New York Times" describing a similar set-up at the University of Maine, which is also linking the arts and nursing in a five-year course. Eighteen women are enrolled at Maine and it is expected that the new course will help relieve the great need for public health nurses.

The Department of Journalism at Temple University has installed a typographical laboratory in a room adjoining that in which practice copy and headlines are written. The equipment includes hand-set type in various sizes and styles and the necessary type cases, composing sticks, imposing stone, galleys, chases and a proof press. The lab work is planned so as to be especially helpful to graduates who engage in country journalism or in advertising.

by Richard Cook

The busiest season of the year is upon us! That is, as far as athletic engagements for the Alma Mater are concerned. In the fall football's prestige was not challenged by any other activity but now that winter is here, varsity and freshman hockey, basketball and skiing are all seeking the limelight. The Cagers rested during vacation but have been practicing this week in preparation for the coming tilts. On the other hand, Ed Blood's skiers and George Thurston's puck chasers were far from idle. The snowmen vied with some of Dartmouth and McGill's best at Lac Beauport, while here in Durham, the skaters returned to get in some much needed practice on the ice.

Tomorrow night the hawk-eye St. Anselm Hawks will be entertained for the second home basketball game of the season. The memory of our recent defeat on the gridiron will be just the spark needed to set the boys off. Let's hope it'll be a big explosion and that our revenge will be sweet. Not forgetting, however, Lundy's admonition as to sportsmanlike behavior. We understand that the Hilltoppers have a new coach and he has the hoopsters rollin' along so far. If last year's performance can be repeated, everyone will be greatly satisfied. On that occasion the New Hampshireites thoroughly trounced our friendly enemies.

Although the official results haven't as yet been released, we hear that the ski team did good 'nuff. Considering their lack of practice and inexperienced team we are quite proud of them. Such outstanding performers as Dartmouth's Chivers and Welles and McGill's Johannsen, provided stiff competition for our three freshmen and three upperclassmen, but our boys placed about third, behind the aforementioned schools and ahead of three or four others.

Coming events in the sports world include: the St. Anselm basketball game tomorrow night in Durham, a hockey contest in Brunswick tonight against Bowdoin, the New Hampshire Winter Carnival February 3 and 4 and a freshman hockey game with Tilton in Durham on Monday. Let us hope that all the teams start the year off in the approved manner.

MUSIC NOTICE

WANTED—One double bass player for University orchestra. Bass furnished. Please see Professor Manton.

Extension Service Holds Conference During Vacations

When the University closed for the Christmas vacation, the campus was not entirely deserted. From December 19 to December 22, about a hundred members of the Extension Service, the men and women who carry the classroom to those who cannot come to the classroom, held their four-day annual conference, under the supervision of Director J. C. Kendall. The purpose of the conference, at which all the departments of the College of Agriculture were represented, was to plan the Extension Program for 1939.

On Monday afternoon, December 19, at 1:30, the county agents met to discuss "Plans of Work", the Home Demonstration Agents met to discuss "Administration Problems", and the Club Agents attempted to settle "The Job of a 4-H Agent, and Some Efficient Ways of Handling It."

Epsilon Sigma Phi Holds Dinner
At six o'clock that evening the dinner and annual meeting of Epsilon Sigma Phi was held in the Commons.

At nine o'clock Tuesday morning, the General Session held a discussion on "The New Deal in Program Planning" led by Earl Fransburgh, county agent leader of Cornell University, and "Better Living on the Farm from the Farm", led by K. F. Warner, specialist from the U. S. Department of Agriculture.

That afternoon the County Agents considered "Planning an Educational Campaign to Help Farmers Use the Agricultural Conservation Program Most Effectively", the Home Demonstration agents listened to Professor William R. Cole of Massachusetts State College lecture on, "Demonstrations on Jellies, Jams and Preserves", and the club agents held a Question Box and work period on poultry; 4-H local leadership was also discussed.

Wednesday morning at nine, the agents listened to a panel discussion, "How to Develop and Use Leaders" by county leaders T. H. Blow, Caledonia County, Vermont; Francis C. Smith, Essex county, Mass.; Raymond A. Atherton, Litchfield county, Conn.; and W. Ross Wilson, Grafton county, New Hampshire.

Professor Foulkrod Speaks

The Home Demonstration agents discussed "The Clothing Project" and listened to Prof. G. M. Foulkrod talk on the "Care and Adjustment of Sewing Machines" while the club agents considered "Cooperative Project Planning: Dairy, Food, Health, and Clothing."

On Wednesday afternoon the county agents held a discussion of organization and leadership, the Home Demonstration agents discussed "The Economic Situation", and the club agents were occupied with "Forestry, Landscapes, Recreation, and Judging."

Wednesday evening the annual Extension Service Dinner and Christmas party was held in the Commons.

Thursday morning the closing general session was led by Director J. C. Kendall in a discussion of results and plans in the organization of community councils, and made plans for the 25th anniversary of the enactment of the Smith-Lever law, and for the Farmers' and Homemakers' week.

Girls' Basketball Schedule Released

The schedule for girls' interclass basketball has been arranged for four o'clock on the following days:

Thursday, January 5, Freshman and Seniors—1st teams
Monday, January 9, Sophomores and Juniors—1st teams
Tuesday, January 10, Freshmen and Sophomores—1st and 2nd teams
Wednesday, January 11, Seniors and Juniors—1st teams
Thursday, January 12, Freshmen and Juniors—1st and 2nd teams
Monday, January 16, Sophomores and Seniors—1st teams

The teams chosen are as follows:
Freshman First Team: Dorothy Perkins, Betty Ridlon, Virginia Dow, Kathleen Ahearn, Alice Whipple, Jeanette Connor, Eleanor Mauricette, Elizabeth Blood; **Freshman Second Team:** Edna Riley, Patricia Bowen, Dorothy Page, Edith Kenney, Eleanor Atkinson, Alma Coury, Daphne Hurlbert, Eleanor Hazen, Eileen Avery. **Sophomore First Team:** Ruth LeClaire, Helen Colby, Barbara Adams, Iris Valley, Ann Carlyle, Marian Morrison, Janet Gagnon, Virginia Percy; **Sophomore Second Team:** Rita Donohue, Joyce Sanborn, Grace Etter, Ethyl McNulty, Dorothy Jones, Elizabeth McCrone, Helen Bartlett, Phyllis Bettelle, Mildred Bacon, Mazie Lane, Priscilla Emery. **Senior Team:** Louise Redden, Augusta Timberlake, Anna Hemmingway, Muriel Chase, Rosetta West, Angeline Janetos, Doris LeClaire, Betty Moore.

LETTERS AWARDED

(Continued from page 1)

Johnson, Creeley S. Buchanan, Max F. Gowan, Fred W. Winterbottom, Wallace Ballou, Clarence P. Parker, Edwin S. Preble, Edward K. Sauer, Raymond B. Patten, Robert E. Onnela, Stanley D. Low, Steven Lampson, John D. Hanlon, Bradford D. Moore, Walter M. Webb, Robert B. Knox, Harry L. Haynes, James G. Russell, Harry Gelt, Donald Jones, Arthur Little, Varsity Manager, Kenneth Huff, Freshman Manager.

Letters in Varsity Cross Country 1938

Arthur D. Bishop, Capt., Theodore A. Underwood, Harold F. Jennison, Jack W. Kirk, Raigh Mason, Harry H. Atwood, John F. Swasey, Jr., Phillip Bell, Varsity Manager, Sherman Ripley, Freshman Manager.

Numerals in Freshman Football, 1938

Richard E. Gordon, Capt., Anthony Budzianowski, Thomas W. Beaudet, E. Stacey Clark, Raymond N. Doyle, Fred A. Draper, George S. Dziadosz, Robert C. Emerson, Alfred A. Ferrante, Harold J. Hall, Charles Kacharos, Edward Lyszczasz, John A. MacDonald, William H. Marshall, James J. Martin, Donald N. Mueller, Paul Nugent, Phillip W. Richards, Edward W. Snow, G. Raulsey Stevens, Anthony J. Touart, Robert E. Wood.

Numerals in Frosh Cross-Country 1938

Raymond A. Rivers, Capt., Robert M. Mullen, Clinton F. Huntoon, Richard J. Harkins, Edgar F. Costello, William K. Millar, Edwin I. Carleson, Merrick P. Rawstrom, Spaulding Shultz, Elwood O. Wells.

ATTENTION—Volleyball Teams

The Department of Physical Education volleyball team issues a challenge to any departmental team in the university for a game of volleyball. Any team wishing to accept the challenge should contact Carl Lundholm to arrange for a date. All games will be played in the Field House.

EAT AT

GRANT'S CAFE

THE FOOD IS EXCELLENT AND THE LOCATION IS CONVENIENT.

Try our Modern and Attractive CAFE where you get Service at the Right Prices.

DURHAM, N. H.

Give us a ring— we're all at sea!

NOW you can telephone to scores of yachts, tug-boats and fishing vessels, from any Bell telephone.

These boats are as easy to reach at sea as your friends' homes ashore. Many are equipped with Western Electric marine radio telephone, sea-going brother of your Bell telephone, and service is provided through radio telephone stations on land.

This new service is a great convenience to yachtsmen—a valuable business aid to operators of commercial craft. One more step toward enabling you to talk with anyone, anywhere, any time!

Why not telephone home oftener? Rates to most points are lowest any time after 7 P. M. and all day Sunday.

BELL TELEPHONE SYSTEM

YES, someone has wised up the Prof to Good Bass Boots. Just see him skim on those skis with the greatest of ease!

Beginner or expert, you'll find Good Bass Boots give more support than a pillar of learning. They're smart, comfortable, form-fitting too. Lads and lassies alike will find them prudently priced from \$6.00 to \$14.00. Yes, and you can buy 'em close by. Drop in and see our wide selection.

MORELAND DISCUSSES

(Continued from page 1)

for the entire project—including the "incidental" power development — \$510,000,000 was appropriated. Under independent construction, about a third of this would have sufficed for all the rest of the program; the remainder, for the power project, will eventually run over \$400,000,000. This "incidental" seemed to Dr. Moreland to be a very large tail for a very small dog. In view of the fact that even if the TVA could sell all its power, the income would only be about a fifteenth of this huge amount. It would seem that the first question is answered in the negative. Proof is furnished by the fact that, even if the utilities could borrow money at the low rate the government can obtain it, the TVA still falls short of being a perfect yardstick by about 43 per cent; while the actual operating costs of the utilities are about 40 per cent higher than those of the TVA. It would seem that the utilities are not swindling the public after all.

The second of the important questions must be answered in the affirmative—also against the TVA. The authority allows states to tax the project to the extent of 5 per cent, but utilities bear axes as high as 15 to 18 per cent. Furthermore, this provision proves to be a boomerang; it decreased tax receipts six million dollars.

Dr. Moreland thus decided that the TVA was not by any means a fair yardstick by which to measure the honesty of the utilities. The TVA, he stated, was giving cheaper service, but at an annual deficit of ten million dollars. It is all very well if the people want to stand the cost and see the TVA continue; but by all means they should not be led to think the Tennessee Valley Authority is running at a profit, or that it is a convincing argument for government ownership of public utilities.

Following the lecture, an informal discussion of questions posed by the listeners was held, and it was apparent

CARNIVAL SCHEDULE

(Continued from page 1)

This play is well known and liked. Last year it won first prize in the State High School Dramatics Competition, and during the summer was presented by the Summer School course in Advanced Stage Directing. Monty Theeros who starred then as Mr. McWinkle is playing the same part this winter.

Immediately following the play, a torchlight parade will form in front of Murkland hall led by the band and several cheer leaders. It will continue down Main street, up Madbury Road and down Garrison Avenue, coming to a halt at "T" hall" arch where three judges will choose the Queen's Court. The twelve or fifteen girls chosen will compete at the Carnival Ball for the honor of being crowned Carnival Queen.

The other event mentioned above, namely the pageant, is still in embryonic form. It will consist of several figure skaters, accompanied by many students, and will be given on the University Pond.

ATHLETIC NOTICE

The following managerial positions are now vacant.

Senior Manager of Varsity Winter Track.

Senior Manager of Freshman Winter Track.

Junior Manager of Rifle Team.

Applicants should state their qualifications in writing and submit them to the Advisory Committee on Athletic Awards, Athletic Dept., not later than Wednesday, January 11.

to the audience in the next half-hour that Dr. Moreland was well versed in both the technical and financial aspects of the TVA. The student attendance at the lecture was very sparse, but the audience was considerably augmented by the presence of Technology faculty, who came en masse.

Selection Plan

Dear Sir:

Some time ago Pete Martin, president of the Senior Skulls, proposed a reorganization of the present Senior honorary (?) societies based upon a selection of members according to objective criteria. Since then I have been studying such a system as being used in other schools, and am now prepared to offer a constructive plan.

Before offering my plan I want to make my position quite clear: as a Senior I will not be affected in any way should the plan be adopted, yet I believe that, in the cause of justice, we need some drastic revisions of our present Senior honorary societies. According to the catalogue, "Blue Key" is composed of 'those men who are recognized leaders in undergraduate activities.' I have discussed this point at length with Paul Horne, President of "Blue Key." While Paul agrees that, perhaps the purpose of "Blue Key" is not properly stated in the catalogue, yet he believes that there should be no radical revisions of the society. My contention is that no society has the right to set itself up as a Senior honorary society unless it clearly states beforehand exactly how members are to be selected, otherwise there is always the charge of favoritism which is difficult to answer. Also, to be really honorary, a Senior Society should recognize that there are a few undergraduate activities other than athletics. I don't mean to speak disparagingly of athletics; they are an important phase of college life, but so are some other activities which heretofore have been rather sadly overlooked by our honorary societies. It is to correct this, and a few other oversights, that I propose my plan.

First, only one society should have the right to call itself the Senior honorary society. Membership of the society would be composed of those men who had earned ten or more activity points by the end of their junior year. To organize the society the first mem-

bers should be selected by a Committee composed of the Dean of Men and the presidents of Blue Key and Senior Skulls. After the initial selection, subsequent committees should be composed of the Dean of Men, the president and two other members of the honorary society (whatever it may be called), and the president of Student Council. To prevent oversights, any man, at the beginning of his Senior year, could insist that his record be scrutinized. It seems desirable that new members should be admitted early in October each year, so that there would be sufficient time to carefully scrutinize records of three years' achievement.

Following is a classified schedule of activity points which cover all types of student activities. It should be strongly emphasized that this schedule is merely tentative, and can be modified according to experience.

Athletics	
Members of a Team	Captain
Major Sport 2	3
Minor Sport 1	2
Scholarship	
Cogswell Scholarships	
\$100	1
\$200	2
Three Year Averages	
Honor	High Honor
1	2
National Honorary Professional or Scholastic Societies	
Member 1	President 3

Happy Combination
 ...a new year
 ...a new **SMOKING PLEASURE**

Make Chesterfield your New Year's resolution ...they'll give you more pleasure than any cigarette you ever smoked.

Chesterfields are better because of what they give you — refreshing mildness, better taste and aroma.

Chesterfields are the right combination of mild ripe American and aromatic Turkish tobaccos — rolled in pure cigarette paper.

When you try them you will know why Chesterfields give millions of men and women more smoking pleasure...why THEY SATISFY.

Chesterfield
 ... the blend that can't be copied
 ... a **HAPPY COMBINATION** of the world's best cigarette tobaccos
