

Tryouts for "Katy Cadet" Will be Held Next Week

Murkland Auditorium Scene of Tryouts Wed., Thurs., and Fri.

Tryouts for the 1942 production of Granite Varieties, "Katy Cadet" will be held in Murkland Auditorium next Wednesday, Thursday, and Friday, March 11, 12, and 13) at 7 p.m., Director Elwyn Dearborn announced today.

Before trying out all those interested in being in the show will be expected to fill out an application which they will receive at the auditorium the night they wish to try out. The applicants will then be called upon to either sing or dance. The applicant may, however, do both. Then, if in the opinion of the judges the applicant seems qualified, he will be asked to read from the script.

Accompaniment Provided

The applicant trying out for singing or dancing roles should have some song or routine ready to be auditioned. Applicants might be more at ease if they arranged for their own accompaniment, but this is not required, as the G. V. Executive committee has arranged to have Gordon Barnett as accompanying pianist.

The following is an idea of what information the application will demand: name, address, telephone, college, last semester's average, part being tried out for (principal or dancing chorus), voice (soprano, alto, tenor, baritone, bass), a listing of previous experience, either in musical or dramatic productions, what kind of dancing can be done, and other entertainment accomplishments.

(Continued on page 4)

Mask and Dagger Banquet At Cock and Kettle

The members of Mask and Dagger will hold their annual banquet at the Cock and Kettle in Hampton on Saturday, March 7. At this time they will receive certificates of membership from Mr. Hennessy who will be present as well as Mr. Keesey. There will be a short business meeting and some speeches. Transportation leaves from Commons at 5:30 sharp.

Carmen-goers Should Brush Up; Library Has Books and Music

by Sallie Sawyer Smith

The more than ninety students who signed up to make the trip to Boston on March 25 for the Metropolitan's presentation of the opera "Carmen" will see one of the most colorful and exciting events of the operatic season. "Carmen" will well repay the music lover who understands his classics, as well as he who cannot tell an aria from a recitative.

The story is one of those eternal triangle affairs, as modern now as when Bizet first produced it in 1876.

First Presentation Failure

Most people know that "Carmen" was a failure at its first presentation, a fact which broke its composer's heart and caused his early death. Most of us are more or less familiar with the famous songs—the Habanera and the Toreador's Song. Many of us would like to brush up on the story and the main airs from the opera before seeing the Metropolitan's production. There are several very good anthologies of opera in the library. The one by Gustav Kolbe is excellent; it gives a synopsis of the story and the main motives from the musical notation. The Victor Company has just published a new book of the same type which also lists the Vic-

Seniors!

New Hampshire Hall will be the scene of a Senior Class Party on Monday evening, March 9, at 7:30. The program for the party will include a class meeting and food and dancing to the music of the College Inn Orchestra.

All seniors are urged to be there to enjoy themselves and to avail themselves of all that is offered. Fun is assured and the more that come the better it will be, so why not try to make it 100 per cent perfect attendance!

"Kitten Kapers"

Tomorrow Night at New Hampshire Hall

Jack Freese and Orchestra Will Furnish Music for Annual Freshman Dance

For over a month the various committees in charge have been making plans for one of the most important affairs of the year for the freshmen, namely the annual dance, which will be called the "Kitten Kapers" this year. Publicity by Students

On Wednesday, Thursday, and Friday nights, several stunts were dramatized in Commons in order to publicize the dance. Various members of the class took part in these skits, which had as their themes the "Kitten Kapers." This afternoon four freshman girls carrying a huge banner bearing the words "Kitten Kapers" marched behind a flaring band in front of the various boys' dorms so that they might contact some of those bashful ones who have not yet decided to attend their own dance.

Dancing will be from 8 to 11:30. Music for the affair will be furnished by Jack Freese and his orchestra, who has played for several dances on campus before.

Jitterbug Contest

Feature of the dance will be a jitterbug contest; something which has not been held at a dance for quite a while. Any student who likes to dance and has some ability for "rug-cutting" may enter this contest.

In keeping with the defense restrictions, decorations for the "Kapers" will be very simple but this should in no way curtail the amount of fun and enjoyment which can be had.

tor records of each production which are available.

Interesting Volume

For those who wish to go a bit further in the matter, there is a book of librettos of the operas which gives the texts in English as well as in the original language, plus the music for the principal airs. One of the most interesting of these is a slim volume in a drab cover which turns out to be a bound copy of the libretto available when "Carmen" was produced at Her Majesty's Theatre, Haymarket in 1878. It was published by the firm of Samuel French of London and New York. The cover advertises that it contains not only the text of the opera in Italian and English, but also a "statement of the time of the performance of each act showing when the opera ends, and for what time carriages may be ordered."

Records in Library

The music room in the library contains a selection of the most popular music from the opera, including the Habanera and the Seguidilla from the first act, the "Air de la fleur" and "Depuis longtemps j'habitais cette chambre," and some of the orchestral music recorded by Leopold Stokowski and the Philadelphia Philharmonic.

Lecture Series Continued by Carl Nordstrom

Totalitarianism Versus Democracy Topic of His Talk Sunday Evening

Professor Carl H. Nordstrom from Dartmouth College will continue the series of lectures sponsored by the Student-Faculty Forum, when he speaks on "Totalitarianism vs. Democracy—Their Way and Ours," Sunday night, March 8, at 7:30 in Murkland Auditorium.

Professor Nordstrom's field of work covers German, Mathematics and Physics. He received a B.S. Degree from Worcester Polytechnic Institute and an M.A. from Lehigh University in 1928. Formerly he was assistant in mathematics at Lehigh and Instructor in Physics at Worcester Polytechnic.

Professor Nordstrom studied in Danzig and Frankfurt from 1929-1932, and was head of the German and Physics departments at Tabor Academy from 1933-38 (during this time three times exchange master in German Government schools.) He was instructor in mathematics at Michigan State College 1938-1941.

Under-sea Life Weird World of Plants and Animals Says Palmer

Noted Marine Authority And Harvard Graduate Discusses Bathyspheres

"Under-sea life is probably one of the most interesting and valuable things to be found in our modern world," according to Vincent Palmer, noted marine authority who spoke in New Hampshire Hall last Wednesday evening.

Mermaid Would Bore

"So amazing are things under the sea, so strange are the things to be found that if a mermaid were suddenly brought up from the ocean, scientists of the sea would probably be bored. Natural plastics are to be found that require very little effort to make them of use to man. Countries now at war would benefit more if they studied and used undersea flora and minerals. For several years Japan has been harvesting seaweed from which come buttons, candy, medicines, and other useful products. Germany is feeding its army on Plankton, a marine growth of similar food value to many plants grown in gardens. Coal, oil, copper and other minerals are to be found a few miles off shore. In Puerto Rico there is so much copper that the fish have acquired a blue color and are poisonous if eaten.

Bathysphere Described

"A diving helmet, suit, or bathysphere is necessary to stay under water for any length of time. The bathy-

(Continued on page 4)

Indian Portraits on Display in Murkland

Two framed portraits of Indians by the late Mrs. Marion Boyd Allen which were recently presented to the university are now on exhibit in the lobby of Murkland hall. These portraits are entitled Pemahiuye ("Early Corn"), Portrait of a Hopi Indian, and Portrait of a Hopi Indian Girl, and will be transferred to the Hamilton Smith Library soon.

Mrs. Allen was well known for her portrait paintings and won innumerable prizes and awards for them. The two portraits presented to the university were inspired by the ten summers she spent in Arizona painting Indians.

Completion of College Advised by President

Attention!

Positions now open for the production staff of Granite Varieties of 1942. They are as follows:

- Dance Director (Man)
- Dance Director (Woman)
- Scenic Designer
- Set Construction Director
- Choral Director
- Stage Manager
- Properties Director
- Lighting Director
- Assistant Lighting
- Press Publicity
- Radio Publicity
- Make-Up Man
- Make-Up Woman
- House Director (Man)

Applications may be had by seeing your house president. All applications must be in to the Granite Varieties Committee by Sunday, March 8.

University Folk Club Offers Scholarship

The University Folk Club is offering two scholarships to women students in the present freshman, sophomore, and junior classes. These are to be offered for 1942-43—one of \$50 and one of \$25.

Some of the factors which will be considered by the committee in considering recipients for the scholarships are:

1. financial need
2. scholarship-personality
3. general financial plan for meeting college expenses.

Application blanks may be secured from Dean Woodruff's office at Thompson Hall or at Mrs. McLaughlin's office in room 208, Pettee Hall. The committee must receive the applications by May 1st and the recipients will be notified as soon as possible.

Nominations Made for W.A.A. Officers

Nominations for the officers of the Women's Athletic Association were made by the nominating committee last Tuesday and presented at Women's Convocation on Wednesday.

Election of officers will be held on Tuesday and Wednesday, March 17 and 18, from nine to twelve o'clock in the morning and from 1:50 to 4:15 in the afternoon at the gym. Women's Student Government will be in charge.

Question of Points

Besides voting for officers, students will also vote on the question of whether or not to give house sports chairmen 50 points toward awards.

Nominations for officers are: for president, Louise Griffin, Peg Dower, Ellen Morton; for vice-president, Chipper Curtis, Clara Knight, Marilyn Whitcomb; for secretary, Carolyn Cleasby, Lilian Hoyt, Louise Johnson; for treasurer, Frances Robinson, Flora Kimball, Dorothy Flanagan; "Rec" manager, Marcia Robinson, Leslie Ireland, Shirley Loughton; for publicity director, Barbara Shepard, Estelle Dutton, Esther Drew, Mary Garrett.

Five Inches of Snow Makes for Good Skiing

Five inches of snow fell in Guilford Tuesday at the same time that it was pouring here in Durham. This should be an added incentive to all those people who are intending to go on the Outing Club trip to Guilford Sunday, March 8.

The snow plus the National and the Eastern Combined Championship Meets should add up to the highlight of the ski trip season.

Engelhardt Speaks at Women's Convo; Marj. Chalmers Installed

It is "a wonderful task" which we as Americans are faced with, said President Engelhardt at Women's Convocation held Wednesday in Murkland Auditorium at four o'clock. The meeting was opened by Barbara Burns who immediately introduced the President. He spoke of the great hardships of women during war and of the great difficulty in maintaining perfect performance back home while the men are fighting.

Competence Important

The immediate task for women is to become as competent as possible and to do this, it was the president's opinion, that everyone should modify his thinking as to work in college. Each and every woman student should have a planned program of consistent hard work with which nothing should be allowed to interfere, and yet which still would provide happiness and enjoyment.

He stressed the advisability of completing college at any cost, and also of working during the summer, even if it is not at all necessary. During this crisis each individual must be able to save himself as an American and thus will America be saved.

Chalmers Installed

Barbara Burns again took over to say her last words as President of the Association of Women Students and administered the oath of office first to the new president, Marjorie Chalmers, and then to the other members of the new executive council.

President Marjorie Chalmers then introduced Eleanor Mauricette, President of the Women's Athletic Association, who presented the nominations for the WAA executive board for the coming year.

Lt. Ben Bronstein, '36 Falls Victim to Nazi Submarine

Former Hoop Capt. Won Cogswell Scholarship; Served as Ship Doctor

Lt. Ben Richard Bronstein, USNR, 26, of Manchester, graduate of the university in 1936, was "lost at sea" last Saturday, when an enemy submarine sank the United States destroyer Jacob Jones off Cape May, N. J. Only eleven out of approximately 145 on board survived the shelling.

After having been graduated from Tufts Medical School in 1940, Lt. Bronstein served his internship at St. Luke's hospital in New Bedford, Mass. He entered the service about two months before Pearl Harbor and was ordered to sea as ship doctor on the Jacob Jones in December, 1941.

Accorded Many Honors

Bronstein was one of the outstanding men in his class at the university. In addition to starring in basketball and captaining the team in 1936, he was vice-president of his class and was awarded a Cogswell scholarship at the conclusion of his junior year. He was a member of Sphinx, junior honorary society, Blue Key, senior honorary society, Phi Sigma, honorary biology fraternity, and Phi Alpha, social fraternity.

Few Escaped

Only three rafts were able to escape the sinking ship. Of fourteen men on one raft, only three survived while eight men were rescued from the other two rafts.

DURHAM, N. H., MAR. 6, 1942

Point System

In a recent issue of *The New Hampshire*, there appeared an article pertaining to the newly resurrected Point System. Since that time there has been much controversy over whether or not such a system is necessary on a campus such as ours. Many of the undergraduates do not fully understand the system as laid out by the student council in conjunction with the administration in T Hall.

It is not the wish of the Council to hold a check-rein on all the undergraduates, or to tell them what they can or cannot do. It is merely their hope that by more or less controlling the positions held by an individual, the organizations themselves will benefit to a greater degree.

Whenever a person is heavily burdened with positions in extra-curricular activities something has to suffer due to inattention on the officer's part. Therefore through the Point System, there can be a better distribution of offices over a greater number of qualified people and the organizations will have more and better leadership.

As it is to be reinstalled here on campus the Point System is nothing new. It was actively run by the student council and backed up by the administration as late as 1937, but from that time to the present it has been allowed to become non-existent, due in the most part to the very thing the System is supposed to prevent.

The student council presidents in the past few years have gone in too heavily for other outside activities with the result that they did not have the necessary time in which to keep the system up to date as it must always be. Other organizations have been affected in the same way in the past, but if the plan is followed religiously, with no exceptions being made regardless of personalities, campus activities will take on a decided turn for the better.

With the school year now more compact than ever before, there is a great need for some sort of ruling that will prevent any one student from taking on too much outside responsibility to the detriment of his academic work. It is the hope of the Council and the administration that the Point System will fulfill this need.

Letters

During the last week we received a number of letters criticizing a certain article that was previously printed. We would have been only too glad to reprint the letters had they been signed, and signed correctly. However, if the writers of these "letters to the Editor" have not enough confidence in their own criticisms to sign their names, we would rather not receive their comments. We will withhold all names from print if desired, but we must have the names on file for the protection of the paper.

To the Editor

(Ed. Note) The following is a letter received here on campus from Bill Ewing, a former student at the University of New Hampshire, who graduated in vtcr.

Special to The New Hampshire

Cross Roads of the World,
Balboa Heights, Canal Zone
February 29, 1942

Today, a welcome bundle of papers arrived from home, and they all originated back in good old Ballard. I was relieved to note that, in spite of the unstable conditions on the campus, the paper has definitely taken a whirl on the improvement side. The pictures add a lot, too. I would like to be there with you now and sneak off into the mountains for a spot of skiing, for that is what I really miss the most here in this tropical torrid territory. We have wonderful hills here, and many of them are steep and clear, but grass is hard to fall in, so I just look at pictures and dream away a fast turn on the Nose Dive.

My most hearty congratulations to Coach Ed and his litter of ski-shod Wildcats. They surely have made a name for themselves in intercollegiate and sportsman skiing in the past two years. That article in the "Times" was the fairest and squarest orchid to our sport that I have ever had the pleasure of reading, and it is a pleasure to see credit fall where it is due. One-sided sport editorials on our athletics are getting to be a thing of the past. Even down here in remote Panama, our New Hampshire men are standing the competition with the super-trained grads from the best schools in the country, and their opinions are to be respected. Guess who dropped into my office last week! None other than Lt. Carl Fuller of the Panama Coast Artillery Command, and a thirty-niner and ex-commons waiter. He happened to see me in the drafting room while in the building on business. He expects a Captain's rating soon. He had talked to Sam Leocha in Cristobal (the other end of the canal) that morning on the phone. Sam (Adolph), a fellow Claremonter, is in one of the Army offices but I am not certain as to his duties. He was a Kappa Sig and graduated with the '38 crop, I believe.

Meets Grads

I had been here only a few weeks when I ran into Ralph "Brud" Wakefield in one of the government commissaries. A fellow student of architecture, Brud was in the class of '40, and left during his sophomore year to join the Army before the war broke out and is now working for a construction division of the Canal out on the Rio Hato area. He likes it here, too. Just to prove that the architects get around there is another representative here by the title of Second Lt. Abbott Jones, stationed at Fort Amador in the Balboa area. I have not seen him as yet, as the boys are pretty busy and get little time off. He graduated last year, and was an SAE in good standing. Some of you old timers will remember John Turci, a capable and conscientious civil engineer from "Doc" Bowler's hatchery in Conant. John bowed out of Durham in '38 and has since made a name for himself as a dependable and thorough engineer. We came down on the same boat, live in the same house, and work for the same office of the Panama Canal Operation and Maintenance Department.

Zone Swell Place

From what I have seen of the Zone in the time that I have been here, I venture to say that it is one swell place in spite of the war, and we fervently hope that it will stay as such. Life here is intensely interesting and not too strenuous, and the civilized scenery and surroundings are something to look at. Of course the jungle is another story altogether, and is as different as a foreign country. The tropical nights are far more beautiful than the movies could ever attempt to make them, and the general climate is quite bearable. The only thing that would complete the picture for me would be a little flying, but non-scheduled aviation is permanently grounded here and so the helmet and goggles stay in the bureau drawer.

Mail is at a premium here, so if any of you pals get an itchy pen, remember Pearl Harbor and the grads in Panama.

Best regards to all,
BILL EWING

Greek World

S.A.E. It was decided by unanimous vote of the brothers that contributions given at "vic" dances each week would be set aside to purchase defense stamps and bonds. We were commended by the faculty advisors upon this action as a display of true fraternity spirit and patriotism. . . . Another "red-letter" week-end is in store for the New England chapters of Sigma Alpha Epsilon. On March 13 and 14 we shall represent UNH at the Founders' Day celebration to be held in Boston. At that time the pledges will receive their formal induction into Sigma Alpha Epsilon.

Phi Delta Upsilon: After a recent election, the following brothers were chosen for the house officers: president, Perry Knowles; vice-president, Harold Warren; secretary, Sherman Reed; treasurer, Malcolm Gifford; board manager, Harry Lucas; and house manager, Wendall Webster. . . . The house is holding a vic dance Friday night and is planning a faculty bridge for the near future. . . . Brother "Ozzie" Wilkins, who received severe burns from a "dud" bomb which exploded, expects to be with us again in a couple of weeks. "Ozzie" is our first known casualty as a result of World War II.

Alpha Chi Omega: Norma O'Dowd, Jane Barton and Doris Randall were pledged recently. . . . Dinner guests last week were Dr. and Mrs. Schaefer and Wednesday was Dr. McGrail. Ruth Grube's again in Hood House, this time with measles. . . . Barb Brakely is with us again after being out sick three weeks. . . . Peggy Dower has been nominated for President of WAA and Marilyn Whitcomb for Vice-President.

Sigma Beta: The new officers who were installed last week are Alex Kischitz, president; Otto Schricker, vice-president; Bud Parker, treasurer; Gene Leaver, secretary. . . . Hell Week starts next week. . . . Artie Flint and several characters from Newport favored us with a visit last week-end. . . . The usual unsuccessful vic dance was unusually unsuccessful last week-end.

Phi Alpha: Mike Satzow has been elected president of the house for the coming year. . . . Other officers elected are—vice president, Charlie Gozonsky; secretary, Zeke Booth; chaplain, Saul Lebowitz; historian, Bernard Rosenblatt; pledge master, Sam Askenazy. . . . Brother Saul Lebowitz has been elected president of Hillel while pledge Warren Robbins was chosen vice-president and Mike Satzow was elected a member of the executive committee. . . . A vic dance is being held tonight. . . . Professor and Mrs. Harland P. Nasvik will chaperone. . . . Hell Week will be brought to a conclusion tomorrow night with the pledges going thru Zero Degree.

Students and Defense

John Davis, president of the sophomore class, has been appointed head-chairman of a committee to handle the sale and distribution of defense stamps to the student body. In accordance with the plan formulated at this week's S.D.C. meeting, John will work with a central committee composed of a publicity director and five co-chairmen, who will represent the following campus groups: fraternities, sororities, men's dormitories, girls' dormitories, and independents. These co-chairmen will in turn work with various agents from the different housing units. This will not be one grand drive, but a continuous sale.

Pan Hellenic and Sphinx are busy organizing a concentrated book drive to "Keep 'Em Reading." The details of the campaign will be published very soon. In the meantime, look over your bookshelf and have your contribution ready—the aim is for one hundred per cent participation.

No Decision Reached In Wednesday Debate

Due to the change in schedule from an evening to afternoon, no decision was drawn from the contest between Brother's College at Drew University, New Jersey and the university debaters on the question: "Resolved: The Federal Government Should Regulate by Law All Labor Unions in the United States." Ted Marks and Bill Robbins took the affirmative for Drew, while James Moulton and Ashley Nevers supported the negative for New Hampshire. Afterwards Dean Alexander gave a brief talk on the good and bad points of the debate.

On March 17 there will be a debate held here on campus between St. Michael's College of Winookski Park, Vermont, and the local team. The question will be the same as that debated on March 4. Last year New Hampshire made the trip to St. Michael's and supported the affirmative; this year New Hampshire will take the negative here on campus.

Phi Mu: Miss Virginia Larkin was a guest at the house last week-end. . . . Daphne Hurlbert and Virginia Page Whiting were both callers at the house Saturday. They are practice teaching in Concord and Laconia. . . . Florence Strout attended the opera "Carmen" in New York City last Saturday. Lorene Scott and Margery Johnson were also in New York for the week-end.

VARSITY AND FROSH TRACKMEN WIN AT COLBY

by Charlie Gozonsky

Paul Nugent, the popular goalie, was recently elected honorary captain of the hockey team, which finished its season two weeks ago. Don Perkins was originally elected president, but since he didn't return to school last fall, Coach Tony Dougal appointed a captain for each game. Thus, two goalies have served the team as captain for two successive seasons; for Captain Jack Wentzell of last year's sextet, was also captain of the team.

The varsity lacrosse squad is due to report to Tony Dougal for indoor practice in the field house in a week or so. Hal Monica, who, in addition to captaining the hoop squad, is also captain of the stickmen, will lead the returning candidates.

With regard to lacrosse, Director Carl Lundholm recently spoke at a meeting of lacrosse coaches and officials and stressed the fact that lacrosse is probably the most beneficial sport played in collegiate ranks today.

Congratulations to Carl Adams on his being selected a member of the All-New England hockey team by the coaches of the teams in the league. The other members of the All-Team are—rw, Wallace, Colby, captain; c, Boudreau, Boston College; ld, Kaneb, MIT; rd, McKinnon, Northeastern; g, Loring, Colby.

It's too bad that Bob Mathews is a senior; for in his first season as a regular on the varsity basketball squad, he led the team in scoring with 180 points. Sophomore Bob Wheeler was right behind with 178 points while Captain Hal Monica finished his last season with 152 points. No one else broke the 100 mark. Mathews played in 19 games; so, on that basis, he averaged only about 10 points per game. However, it was not until well into the season that he began starting games. Beginning with the first Connecticut game, the first that he started, he averaged approximately 20 points a game.

The basketball floor is leaving the premises and so are some of Coach Henry Swasey's worries. The reason is that, whereas his basketball team was far from successful, his baseball team is practically a cinch to capture one of the top places in the New England League. Leading the returning veterans are Captain and third baseman Dick Sughrue and Sheik Karelis, pitcher and pinch hitter. Other men coming up from last year's team are catcher George Alimi, infielders Jerry Thayer, Tom Callagy, and Norman Flint. Swasey has lost Cryans and Austin from his outfield; but Bing Boucher and Dick Smith are still here. In addition to these, such promising men as Paul Nugent, Harold Hall, Fred Draper and Ray Dupell are also due to report for baseball.

'Cats End Fruitless Basketball Season

by Phil Peters

Last Saturday one of the most disastrous basketball seasons in New Hampshire history was climaxed at the Field House when Maine defeated the Wildcats with no serious resistance. The Wildcat basketekers fell victims to fifteen opponents during the loss-laden schedule, while finishing in the winning column only six times, and only twice in intercollegiate competition.

Most of the material was green at the start of the season, and it was expected that in the near future, Swasey's forces would take a turn for the better and produce victories. The fact is, however, that New Hampshire didn't really increase in efficiency.

Throughout the season Captain Hal Monica was the best all-around player on the team. He showed more fight than anyone else, always fighting hard until the final whistle. Hal was the best ball-handler and was the third leading scorer even though playing at the guard position. Monica scored 36 points on foul shots, leading the team in this department, and got 58 field goals for a total of 152 points.

Bob Mathews showed the most rapid pace of improvement. He tallied 78 field goals, 24 foul shots, for a total of 180 points, thus becoming the club's leading scorer. This record is more significant since Mathews didn't play as a regular until the season was well under way.

Bob Wheeler netted 73 field goals, 32 fouls, for a total of 178 points, thus being second in scoring and only two points behind Mathews.

Following is the summary on scoring for the season. The practice game with the Naval Apprentices from Portsmouth isn't included.

	FG	F	TP	Games
Mathews	78	24	180	19
Wheeler	73	32	178	19
Monica	58	36	152	19
Kolinsky	26	16	68	20
Hall	28	10	66	18
Clark	17	9	43	13
Harris	19	12	50	16

tion to these, such promising men as Paul Nugent, Harold Hall, Fred Draper and Ray Dupell are also due to report for baseball.

All of this, of course, doesn't take into account the fact that some of last year's frosh may make the team. The 1944 baseball team which was coached by Hal Rood (who has since left his position here for a high school athletic director's post) split six games. Captain Ike Rhuland shows promise as a catcher while Fred Jervis and Mickey Meserve, who were star hurlers for the Frosh would appear to be capable of giving Sheik Karelis, Ray Dupell, and Fred Draper strong support on the mound.

BUY DEFENSE BONDS

Football Coaches Meet Candidates

Sauer Checks Out Suits At First Meeting

Coach George Sauer checked out suits this afternoon at the first meeting of football candidates. Preliminary training will get underway Monday, at which time the coaching staff is particularly anxious to have all freshmen and upperclassmen who have not yet participated in football report in order to get a good start on the veterans who are not going to be called out for another week.

Meeting the new candidates next Monday will be Coaches George Sauer, Charles Justice, and frosh mentor George Fielding. In addition, several of the senior members of last fall's football squad including Captain Dick Gordon, Ed Bove, Harold Hall, Bill Marshall, and Ed Lyszcas, have consented to come out and help break in the new men.

Games Every Week

The program arranged by the coaching staff includes first of all, a few minutes of daily calisthenics before actual practice starts. Then will follow instruction in fundamentals, followed by more concentrated drilling in team play. Furthermore, once every week there will be games between squads of equal ability; so everyone will have a chance to play.

Probably the most beneficial and therefore the most important feature of this year's spring football practice period is the desire or Sauer to have every boy in school—and that really means everyone, regardless of ability or inexperience—to at least come out for the first few days if it is at all possible. No one is going to be cut and no new men are going to be pitted against veterans; so everyone has a fine opportunity to get into condition, learn something about football, and have some fun—all at the same time.

DENTISTRY

The field of dentistry offers to college students an attractive career. It provides a worthy intellectual challenge, a life of professional service with satisfactory income, and an opportunity for research and teaching in this division of medical science and art.

The University of Pennsylvania has prepared more than six thousand graduates who are occupying positions of importance in the profession throughout the world. Its course of instruction is of the highest order.

Anyone interested in this profession as a life work is invited to apply for further information to

Philadelphia, Pa.

Lowry, Styrna, Morcom Lead Varsity, Koumantzalis Stars for Freshmen

Sweeping three events, the University of New Hampshire freshman track team concluded their season by defeating the Colby frosh, 58-31, Wednesday. The meet was run off in Waterville and the resulting win made it two in a row for the frosh over Colby.

The three contests taken by the Kittens in toto were the 40-yard dash, the 600, and the shotput.

John Koumantzalis won the 40-yard dash and the broad jump and was a close second in the 45-yard high hurdles. Clayton Ingraham hit the tape in the 300 and finished third in the 40-yard dash.

Fourth Victory for Frosh

Dick Scammon was the winner of the 600 and followed Koumantzalis in the 40-yard dash. Other winners for Sweet's frosh were Cram in the 12-pound shot put, Reekie in the pole vault. The remaining points were gathered by Leavitt, Merrifield, Mitiguy, Pelonski, Feuerstein, Lane, Johnson, Tower, and Stevens.

It was the fourth victory for the Frosh as opposed to just a lone defeat—inflicted by the strong Tufts freshman squad.

The summary:

40-yard dash—Won by Koumantzalis (NH); second, Scammon (NH); third, Ingraham (NH). Time, 4.9s. 45-yard high hurdles—Won by Lewis (C); second, Koumantzalis (NH); third, Leavitt (NH). Time, 6.1s. (New meet record). 300-yard run—Won by Ingraham (NH); second, Merrifield (NH); third, Reifel (C). Time, 35.1s. (Ties meet record). 600-yard run—Won by Scammon (NH); second, Mitiguy (NH); third, Merrifield (NH). 1000-yard run—Won by Robinson (C); second, Pelonski (NH); third, Burke (C). Time, 2m. 36s. Mile—Won by Burke (C); second, Robinson (C); third, Feuerstein (NH). Time, 5m. 1.5s. 12-pound shot—Won by Cram (NH); second, Lane (NH); third, Johnson (NH). Distance, 46 ft. 9 3/8 in. Broad jump—Won by Koumantzalis (NH); second, Lewis (C); third, Tower (NH). Distance, 21 ft. 7 3/4 in. Pole Vault—Won by Reekie (NH); second, Lyman (C). Height, 9 ft. High jump—Won by Lewis, (C); second, Tower, (NH); third, Stevens (NH). Height, 6 ft. 1 in.

Frosh Five Finish With 8 and 5 Record

Proving to be just about the most successful winter sports aggregation on campus, save for the miraculous exploits of the ski team, Coach George Fielding's freshman hoop squad wrote finis to a fine season recently by ringing up a record of eight victories in thirteen encounters.

Despite the fact that the squad was riddled by injuries, sickness, scholastic difficulties, and even at one time disension in the ranks, the Kittens nevertheless took the floor a fighting, classy and a high-spirited five at all times. Falling before the set-formation attack of the Kittens were Northeastern, Tufts, BU, Nichols Jr. College, Bridgton Academy, St. Anselm, and in informal contests, the Two-Year Aggie five and a team from Camp Devens.

Outscoring the Fieldingmen were Northeastern, Exeter, Concord Business College, and in an informal clash, Manchester Air Base.

Britton and McDermott Captains

Paced by Al Britton and Dick McDermott, who were elected honorary captains, and further abetted by Soc Bobotas, Nick Bograkus, and Bob Stafford, the yearlings amassed a total of 482 points to the opposition's 421. Britton and Bobotas led the individual scoring parade closely followed by Bob Stafford.

A terrific blow befell upon Coach Fielding even before the campaign got underway. Both Bob Stafford and Tom Cotter suffered injuries and were unable to play until late in the season. However, both showed up well upon their return. Things might have been well different if these boys could have been in there from the start. Then came

Boo Morcom and Ed Styrna continued to break records Wednesday when Coach Paul Sweet's varsity track team defeated Colby at Waterville, Maine, 59 1/2 - 46 1/2. It is the first dual meet that the Wildcats have taken so far this year, two previous defeats having been suffered at the hands of Tufts and Maine.

Both teams captured six first places. Thus it is obvious that New Hampshire's second and third place strength—a factor that has lost the Sweetmen many a meet—was a deciding factor in determining the winning team.

Wayne Lowry, the veteran junior distance runner, showed his heels to everyone else in both the 1000 and the mile. Wayne, incidentally, recently took third place in the NEAAU 1000-yard run at the Tufts gymnasium in Medford, Mass.

By throwing the 35-pound hammer, 53 feet, 6 3/4 inches, sophomore Ed Styrna not only captured the top slot in the event, but also established a new meet record. In addition, he was second in the shot put and third in the broadjump.

It has now become a foregone conclusion that when Boo Morcom enters an event, he is pretty sure to win it—and so it worked out at Colby; for as usual he was number one man in the high and broad jumps and the pole vault. He set up two new meet and field house records as he high jumped 6 feet, 5 1/2 inches and pole vaulted 13 feet, 2 1/4 inches.

Along with Lowry, Jim Sleeper also ran in both the 1000 and the mile and placed second in the former and third in the longer run. William F. King won second honors in the pole vault and the hurdles.

Next Dual Meet with Dartmouth

For most of the team, this Colby meet, which, by the way, both varsity and frosh teams have won the last two years, is the last competition until the dual meet with Dartmouth on the fourteenth at Hanover. That will be the concluding event on the entire winter sports calendar.

However, Morcom and Styrna travel to New York with Coach Paul C. Sweet again this week-end to test their ability against the nation's best in the ICAAAA championships in Madison Square Garden.

40-yard dash—Won by Bateman (C); second, G. M. Smith, (NH); third, Atwell (NH). Time, 4.9s. 45-yard high hurdles—Won by Pratt (C); second, King (NH); third, C. Smith (NH). Time, 6.3s. 300-yard run—Won by Bateman (C); second, Turner (C); third, Atwell (NH). Time, 35.4s. 600-yard run—Won by Turner (C); second, Hyldborg (NH); third, Abel (NH). Time, 1m. 22.3s. 1000-yard run—Won by Lowry (NH); second, Sleeper (N H). Time, 4m. 46s. Two-mile Run—Won by Quincy (C); second Brown (NH); third, French (NH). Time, 10 m. 22.2s. (New meet record). 35-pound hammer—Won by Styrna (N H); second, Lebednik (C); third, Hutcheson (C). Distance, 53 ft. 6 3/4 in. (New meet record). Broad jump—Won by Morcom (NH); third, Styrna (NH). Distance, 21 ft. 10 1/2 in. High jump—Won by Morcom (NH); second, Bateman (C); tie for third between Pratt (C) and W. King (NH). Height, 6 ft. 5 1/2 in. (New meet and field house record). Pole vault—Won by Morcom (NH); second, W. King (NH); third, Poirier (C). Height, 13 feet, 2 1/4 inches. (New field house and meet record). Shot put—Won by Lebednik (C); second, Styrna (NH); third, Helin (C). Distance, 41 ft, 6 1/4 inches. (New meet record).

the loss of Bill Lewko due to scholastic difficulties at the end of the semester. Lewko was forcing the leaders for scoring honors at the time of his departure.

Besides the aforementioned players, George Pasichuke, Rolly Stroyman, Bob McNair, Ernie Rangasas, Tweet Birdsall, and Bob Bedard were other members of the squad who showed up to advantage and who should be in there scrapping for varsity squad berths next winter.

Elections for Prom Queen Scheduled For March 24

Committee to Go Thru List of Every Girl in Junior Class; Choose 10

General Chairman, Carl Carlson, announced yesterday that elections for Junior Prom Queen will take place Tuesday, March 24. At a meeting held yesterday afternoon of the entire Prom committee the members decided that on March 11 they will go through a list of every girl in the junior class and from this number choose ten of the most attractive co-eds. At this meeting which will be held at 7:00 p.m. in Murkland 14 the ten girls that receive the largest majority of votes will be placed on the 'most beautiful' list.

Following the lead of the Carnival Ball committee the Prom members have decided to economize where they can—but this does not mean that they obtain anything but the best band possible.

Committee Members

Committee members and the dorm, sorority, or fraternity, which they represent are as follows: Decorations—Dotty Kimball, Chairman; Dorothy Sawyer, Theta Upsilon; Jack Marr, Pi Kappa Alpha; Dick Sullivan, Hetzel; Marjorie Farwell, Scott; Jean Dempsey, Phi Mu; Vera Lang, Alpha Xi Delta; Frank Lambert, Tau Kappa Epsilon; Marjorie Chalmers, Alpha Chi Omega; William Muir, Phi Delta Upsilon; and George Paulson, Commons.

Orchestra

Orchestra—Charles Costigan, Chairman; Milton Cram, Alpha Tau Omega; Frank Churas, Kappa Sigma; Robert Dudley, West; and Jane Bourn, Congreve South.

Queen's Cup

Queen's Cup—Flo Kimball, Chairman; Helen Dobek, Pi Lambda Sigma; Alice Monroe, Association of Women Day Students; and Edith Phair, Kappa Delta.

Tickets

Tickets—Sonny Lamond, Chairman; Jack Grady, Men Commuters' Club; Wallace Morse, Student Co-op; Meyer Satow, Phi Alpha; and Ray Haskell, Alpha Gamma Rho.

Publicity

Publicity—Jack Hassett, Chairman; Roland Smith, Phi Mu Delta; Bud Parker, Sigma Beta; Robert Joslin, Theta Chi; Betty Jo Weaver, Smith Hall; and Gordon Barnett, Sigma Alpha Epsilon.

Programs

Programs—Polly Little, Chairman; Ruth Pfadenhauer, Chi Omega; Bob King, Lambda Chi Alpha; and Bill Keough, Theta Kappa Pi.

College Chest Fund Begins Drive Soon

March 23, 24 and 25 have been selected as the dates of the first College Chest Fund drive on campus, it was decided by the committee in charge at their regular meeting.

In this concerted effort to raise money for the various relief organizations seeking aid, the committee will be aided by a group of solicitors chosen from the dormitories, fraternities and sororities, during the last week.

Bill Cone, chairman of the fund, announces that cards, on which are printed different types of relief work, will be given to all donors. Those donating will be asked to name their preferences of relief, or to allot their share in any way they desire. In this way the student has a definite say in the distribution of the money.

New Labor System Installed in Student Cooperative Club

by Dot Dowell

"Three no-trump."
"By me!"
"Pass."
"It's all yours!"

No, it's not the Culbertsons, but just a friendly after-dinner game at the Student Cooperative on Ballard Street. The chess players also enjoy their favorite pastime—"meditation." I think it's called; the atmosphere around the two chess boards (oops, I forgot Mickey's new, super pocket edition), around the three boards, is always tense with "calculation." But neither bridge nor chess prevent "Lil Abner" and "Donald Duck" from having a one hundred per cent circulation.

Organized in 1936

The Student Cooperative Club was first organized at the University of New Hampshire in 1936 by a group of students interested in improving their economic status. A cooperative, they felt, would enable them to obtain their meals at a relatively low cost and to have some fun besides. The group hired a cook, and the members themselves did all the rest of the work.

New Arrangements

Recently, the labor arrangement was somewhat reorganized. It has been traditional for all of the members to participate in the work, but under the new plan it will be possible for some of the members to earn all or part of their board through working. The others will not work. The new system has several advantages: those who do not wish to work will have the additional time to use in other ways; members with over-crowded schedules will find it profitable to be able to relinquish one activity; others will be glad of the financial gain to be derived from a regular job.

The club still adheres to the aims of its founders, who sought to establish a democratic and non-profit making organization. Membership is in no way restricted by race, religion, or political beliefs. Common objectives and the friendship fostered through exchanging ideas, occasion parties,—yes, and playing bridge and chess!—have made the Co-op something more than just an eating place.

Shurcliff Will Show Members Initiated Into Psi Lambda

Sidney Shurcliff, famous skiing photographer and lecturer, will appear in person at 8 p.m. Thursday, March 12, at New Hampshire Hall to present his latest film, "Skiing Again."

The program, which is sponsored by the Outing Club, will consist of two parts, lasting ninety-nine minutes in all. Part I, "Skiing America 3rd," is a ski travelogue featuring skiing thrills and views from Mt. Rainier, Mt. Hood Winter Park, Colorado, and Alta, Utah. The second part is a comedy with musical accompaniment entitled, "Dr. Quackenbush Skis Headwall."

Last year Mr. Shurcliff's presentation here of his film "Ski America 2nd" brought a hilarious evening's entertainment to those who attended it. The film was of as much enjoyment for those who do not ski as those who indulge in the sport.

PALMER LECTURE

(Continued from page 1)

sphere is a steel ball, only four feet in diameter, with three inch thick quartz windows. Just as one has become as comfortable as possible in a scrunched down position the other person going with you climbs in.

"Entering the water the local chamber of commerce of fishes comes up to greet you. The light fades slowly and at a depth of 800 feet it is completely dark. Small patches of light may be seen moving about in the water. These patches of light are fish. Fish only eat or are eaten and these patches of light illuminate food that may be eaten or serve as attraction for other fish that prey."

Vincent Palmer, after graduating from Harvard College in 1936, went to Europe to take pictures of the dictators and the Spanish War. Resigning from this position he decided to go back to the study of under sea life. At Marine Land, Florida, Mr. Palmer has been studying fish diseases and responses. A large bell rung under water calls the fish to dinner, which shows conclusively that fish hear. A series of cells along the side of the fish called the lateral line intercepts the sound waves.

Movies Shown

Interesting movies of undersea life were shown to the gathering of several hundred. The birth of a porpoise was shown, the only record of this event that has been observed by man. The baby porpoise was stillborn and the other porpoises did not eat for a week. The mother refused to eat at all and died two weeks later.

Mr. Palmer has also had experience hunting. The expedition which was made to Mona Island, the scene of a submarine attack Tuesday, was made

Plans have also been made for the different fraternities to run vic parties at which voluntary donations can be made to the fund.

Psi Lambda held its annual initiation of new members on Friday afternoon, February 17, and followed the ceremony with a tea.

At the first meeting of the new members which was held on Monday, Mar. 2, officers were elected, with the following results: president, Mabel Bartlett; vice-president, Virginia Trainovich; secretary, Marian McIver; treasurer, Ethyl Koehler; and special activity chairman, Edith Phair. Miss Brewer was unanimously elected to continue as advisor.

Plans for becoming affiliated with a national Home Economics honorary society were discussed and correspondence on this subject was read.

Two dates were set for coming events of the club: April 9, the spring Home Ec. banquet; and March 16, the next Psi Lambda meeting.

The new members are as follows: Virginia Trainovich, Edith Phair, Ethyl Koehler, Marian McIver, Priscilla Tillson, Mabel Bartlett, Katherine Batzis, Ruth Pfadenhauer, Evelyn Tipping Marcia Weatherill, Annotte Thompson, Dorothy Cousins, and Beatrice Grant.

Soph Class Party Set for March 20

At a meeting of the sophomore class on Wednesday evening in Murkland Auditorium it was definitely decided that the Sophomore Party will be held in New Hampshire Hall on Friday evening, March 20, from 8 to 11:45 p.m.

John Davis presiding, the class decided that the party should be exclusively stag and each member attending should subscribe twenty-five cents to the class treasury to defray expenses of the party. A member from each sorority, fraternity, and dormitory will be appointed to distribute tickets among the members to generally "boost" the idea. Johnny asked the cooperation of everyone in making the event a success since it may be the last time that the sophomores as a group may have a chance to get together.

For entertainment it was suggested that the class be canvassed for talent to provide a type of floor show. Ruth Nissen, Paul Cattabriga, and Ted Davidson were put in charge. It is hoped that facilities for pingpong, cards, and badminton will be provided; besides dancing.

The committee is going ahead with plans and further developments will be announced later.

up of fifteen Harvard men and the cook, who was from Yale.

Mr. Palmer's plans for the future include the study of sea life as well as helping national offense by trying to see what can be made of undersea plastics.

Music Students Present Recital Sunday Evening

Pupils of Professors Berman, Tritt, and Copplestone will Perform

The students of Professors Berman, violin, Tritt, piano, and Copplestone, vocie, will present a recital in Murkland Auditorium, Sunday evening, March 8. The program will be as follows:

- Etude, Op. 10, No. 3 in E major Chopin
- Barbara Goodrich
- Concerto in A minor Arcolay
- Marion Sheahan
- On Wings of Song Mendelssohn
- Frances Smith
- Ecologue Delibes
- Frances Smith
- The Harmonious Blacksmith .. Handel
- John Earle
- Scotch Pastorale Saenger
- Elizabeth Piper
- Jewel Song from "Faust" Gounod
- Clara Knight
- Gavotte from "Manon" Nassenet
- Clara Knight
- The Lake at Evening Griffes
- Priscilla Marrotte
- Aria Tenaglia
- Miriam Terhune
- Du bist die Ruh Schubert
- Louise Edson
- When Celia Sings Moir
- Louise Edson
- Whims Schumann
- William LaForge
- Sarabande and Allegretto Corelli-Kreisler
- Marguerite Wolverton
- Mon coeur s'ouvre a ta voix Saint-Saens
- Anita Smith

KATY CADET TRYOUTS

(Continued from page 1)

Script Flexible

It was stressed by the Granite Varieties Executive Committee that the script is flexible enough to allow any specialty acts (if thought to have production possibilities) to be incorporated into the show.

The plot will be slightly outlined at tryouts so as to give applicants an idea of the parts there are available. It has already been learned that "Katy Cadet" has six principal roles, at least ten minor speaking parts, and the usual dancing choruses, with openings for both men and women.

Students to act as judges for casting this all-student musical comedy are Director Dearborn, Music Directors Nathan Babcock and Gordon Barnett, Phyl Deveneau, Louise Edson, Wini Kennedy, and Tom O'Donnell, all members of the Granite Varieties Executive Committee of 1942.

LT. BRONSTEIN

(Continued from page 1)

Only a day before the attack on the Jacob Jones, the tanker R. P. Resor was torpedoed and sunk off the same New Jersey coast. The Jacob Jones was the twenty-sixth merchant ship or tanker sunk by Germany's submarines since enemy operations were begun off the coasts of the United States.

Pan-Hellenic Plans Sadie Hawkins Dance For Friday, March 27

Jack Freese's Band Plays At Sadie Hawkins Party

Plans for the Pan-Hellenic Dance are now completed with the announcement that Jack Freese and his orchestra will furnish the music for the evening. This year the annual ball will be held in New Hampshire Hall, Friday, March 27.

The Pan-Hellenic Society, with Carolyn Gove as president, has determined that this will be definitely a Sadie Hawkins affair. Although in previous years this intention has been declared, it has never been fully carried out. The sorority girls must supply the full evening of entertainment from buying the tickets, calling for their guests, and returning them safely to their respective homes.

Several of the sororities are planning buffet suppers before the dance and others have not yet decided the program for the night. Non-sorority girls may attend the ball through the invitation of a sorority member.

"REC"

"Rec" will be omitted on March 9, because of the Senior Party being held in New Hampshire Hall. Due to the fact that Outing Club is sponsoring a movie on that evening, "rec" will also be omitted on Thursday, March 12.

PSYCHOLOGY CLUB

The Psychology Club will hold a meeting at Phi Mu Delta on March 11, 1942, at 8 p.m. Movies will be shown.

SONG WRITERS

All song writers for Granite Varieties are requested to please come to a meeting in room 102, Ballard Hall between 6:45 and 7:30 p.m. on Sunday, March 8.

N. Babcock,
G. Barnett,
Musical Directors.

Charles Gozonsky Sports Editor of New Hampshire

Charles M. Gozonsky, who has been active for two years on the New Hampshire, has been appointed sports editor of the paper. Gozonsky has played large roles in debating, track, and the Wildcat. He is a member of Phi Alpha fraternity. A sophomore at the university, he comes from Laconia.
