Ragonese Runs Pace Wildcats Second Win

Wildcats to their second victory of the season by running 68 yards on an off-tackle play to tally, and minutes later intercepted a pass in the end zone and scampered 101 yards through a bewildered R. I. eleven for his second T.D. of the day and his fourth for the year. When the final whistle blew, Coach Biff Glassford's Wildcats had defeated the Rams by a score of 25 to 12 in the first home game since football has been resumed. Nearly 6000 sweltering spectators saw the T introduced with its much publicized wide-open brand of football.

Ernie Rainey, UNH right guard, kicked off to Rhode Island, who proceeded to push the Wildcats all over the field in a very hectic first period. They ran and passed almost at will except when they neared the goal line. The period ended as the Wildcats halted a Ram drive on the N. H. nine-yard line.

N. H. started a drive of its own at the beginning of the second period, but O'Rourke of R. I. recov-

Poetry Invited for College Anthology

The National Poetry Association announces November 5th as the closing date for acceptance of manuscripts for the Annual Anthology of College Poetry. All college students are cordially invited to submit verse for publication.

There are no charges or fees for inclusion of verse in the Anthology. The recognition afforded by publication will reflect credit on your school, as well as afford satisfaction to those who have an opportunity to compare their own work in print with that of others of their age and attainments.

of the student must appear on each

The staff of The New Hampshire wants everyone to have a chance to contribute to his campus newspaper, and students from all classes are welcome. The editorial department offers openings for repartment has places open on the to help get the paper on the streets on Thursdays.

Members of both staffs will be on you and talk over the main points

Veterans Up UNH **Enrollment Figures**

Veterans out-number civilian stuveterans, 850 are civilian women, as a student or staff member. and 150 are civilian men. The total twelve-fold, with the present enlast October when 200 former servicemen entered UNH.

The student body is more than fifty per cent larger than in prewar years when the peak enrollment was reached in the fall of 1941 with a registration of 2,100 students.

There are approximately 1,300 students enrolled as freshmen, and of the 2,000 upperclassmen, 500 former students will be re-entering after their discharge from the serv-

Enrollment in the college of liberal arts leads with 2,050, college of technology has 850, 350 in the

Members of the three upper classes arrived on Monday, October 7, for registration. Classes began for all students on Tuesday,

Sets New Record

The Associated Collegiate Press of The National Scholastic Association has awarded THE NEW HAMPSHIRE, official campus publication for the University of New Hampshire, a First Class Honor Rating of Excellent for the semester ending last June. This is the first time in the history of the university that the college newspaper has received this award.

Judgements are made every semester with college newspapers throughout the nation figuring in the competition. All judgements are based on professional standards of journalism.

Although THE NEW HAMP-SHIRE has several times in the past attained a second class rating, this is the first time since its inauguration that it has won the Ex-

With the same staff that won this honor for UNH's newspaper back intact, and with the preponderance of talent on the campus this year, there is no reason why this goal cannot be achieved again in the coming semester.

on October 19th.

University Opens With Record Enrollment; Fine Year Promised Co-op Commissary School Has Share

The Student Veterans Commis-

sary have announced that any veteran, married or single, who wishes to join or inquire for more details should get in touch with Jack Sherburne at the commissary in Room

201, Pettee Hall.

The Veterans Commissary was started last year by a group of veterans who felt that they could not porters, rewrite men, typists and meet the rising costs of living on "heelers," while the business de- the subsistence given them by the government. By special arrangeadvertising, circulation, and sub- ment with the university officials a scription staffs, as well as "heelers" room in Pettee Hall was granted, free of rent, in which to keep the commissaries' supplies. The university business office did all the hand on the above nights to meet bookkeeping and the veterans arranged among themselves volunteer crews to take turns working in the commissary in their spare time.

> In this manner there was no overhead involved and the veterans benefited with savings of from 10 a.m.; Tuesday, November 19, Midto 30 per cent on some items. To semester reports to be filed (as join the commissary a married vet- originally scheduled); Wednesday, eran must pay a fee of \$10 which goes towards building up a buying

Of member. The only requirement to the total number of 3,300 students be met by a married veteran is that enrolled here this week, 2,300 are he be associated with the university

In the past the commissary has number of veterans attending the handled most of the staples and university has increased almost have announced that this year they will handle fuel oil and coal at al rollment of 2,300 as compared to most wholesale prices. Further expansion, officials of the commissary stated, depends on the number of veterans trading at the commissary and the buying power which can be

Veterans Dominate New Frosh Class

The largest freshman class in the history of the University of New Hampshire entered here on Tues-Week opened, Dr. Everett B. Sackett, Dean of Student Administration, disclosed in a recent announcement.

There are two veteran students in the approximately 1,300 undergraduates enrolled as freshmen, 880 are chrzak, George Reynolds and Donveterans, 230 are civilian women, ald Steele, instructors in the Deand 185 are civilian men. Twelve former servicewomen are among the veterans who have enrolled at the university under the G.I. Bill.

Orientation Week afforded new students a chance to get acquainted with the campus, advisers, and with each other. During the day time hours such matters as arranging a taking placement examinations were planned.

Evenings were devoted to dormitory meetings and social activities, an address by President Harold W. Stoke, the President's reception for the freshmen, and a WRA football dance on Saturday night, with music furnished by Carl Broggi and his orchestra. The Mortar Board, composed of girls in the upper classes, operated an information of the AWS. Pre-War Pledges Retain Old Status

The following agreement was reached by the Interfraternity Council at a meeting this week in order to clarify the status of prewar fraternity pledges:

All men who were formally pledged by a fraternity, but not fully initiated, will be carried as pledges by their fraternity without repledging.

Any pledge who does not desire to maintain his pledge may be released by notifying, in writing, the fraternity and also the office of the Dean of Men. Those who do drop their pledges will be permitted to accept a bid from another fraternity during the next "rushing" season.

This agreement is only applicable to those men who pledged to a fraternity prior to their leaving school

Dr. Richards

Staff Reporter

It is the responsibility of the University of New Hampshire, a trust held in common with all institutions of learning, to create an environment from which shall emanate understanding, appreciation, and betterment to reach an ever-widening circle of citizens. That responsibility, taking many forms, in many curriculums, was fully appreciated by the late Dr. Alfred Ernest Richards, for nearly 35 years a member of the UNH faculty as head of the department of English.

Dr. Richards was a scholar; and a gentleman in the true meaning of that word. He was intensely interested in literature, and because of his own academic background, well qualified to pass his knowledge on to others. He went to Durham long before the school attained university status, and thus it was his privilege to see the institution grow physically and in prestige. He will be missed not only because he so ably performed the invaluable mission in life that was his, but also because of his own fine character and personality. The university has lost a friend and advisor of long standing and great worth.

The preceeding editorial appeared in the Manchester Union Leader following the announcement of the death of Dr. Richards. We have reprinted it here because we feel that it expresses our sentiments. We can only add that to those students who knew and worked with Dr. Richards they have been fortunate as only a few can be; to those who have never known the late Dr. Richards it will be a gap that will be hard to fill. Ed.

School Has Share of Trials

(continued from page 1)

equipment. And, if you have any ideas as to how to solve some of these problems - how to get door hinges from strike-bound factories, soap flakes, more carpenters or plumbers — it isn't just UNH, it is the country, that is looking for you.

Fortunately, the readjustments we must ask you to make are temporary. By the time their novelty wears off, we expect you can be well settled in comfortable circumstances for the year. In the meantime, let's prove that the spirit of adventure is not dead.

All over America this week young people are crowding into the universities. There they will have an opportunity to acquire knowledge, to learn to think critically and independently, to develop a full sense of values and the confidence that comes with personal power. That opportunity is yours at UNH. I am sure you will make the most of it.

Dr. A. E. Richards

Dr. Alfred E. Richards, professor of English at the University of New Hampshire from 1912 until his retirement in 1945, died here on September 25 at his home after a long illness.

Dr. Richards was widely known for his teaching, research, and writings in the field of early English and Chaucer. He was also considered an authority on the Faustus legend, and was noted for his courses in "Ruskin" and "The Bible as Literature.'

He was born on March 11, 1874 in Hartford, Conn., the son of Alfred and Laura (Johnson) Richards. He attended the Hartford his A.B. from Yale. In 1900 he received his A.M. from Yale and in 1904 his Ph.D. from the University of Munich. He did further graduate study at the University of California in 1917 and 1927 and at Columbia University in 1920.

After teaching modern languages at Lehigh University in 1904-5, Dr. Richards went to Princeton University where he taught German from 1905-11, and English at the University of Washington from 1911-12. He was visiting lecturer in English at the University of Minnesota during the summer of In the fall of 1912 he came to New Hampshire as professor of English and head of the department of English. He remained head of the department until 1939 and continued teaching until 1945.

On April 26, 1915, he was married to Katherine Moore Barrows, daughter of Dr. John Henry Barrows, president of Oberlin College.

Beloved Professor

One of the most beloved professors at the University of New Hampshire, Dr. Richards was always interested in student affairs. In 1913 he helped students publish the first "New Hampshire Songbook" and in 1915 he started the and Lee Richards Bradley.

University Mourns | Rhodes Trust Starts New Scholarships

Elections to Rhodes Scholarships in this country will be resumed in December of this year, it was announced by Dr. Frank Aydelotte, American Secretary of the Rhodes Trustees. Applications are due on November 2 and those elected will enter the University of Oxford in October, 1947.

Rhodes Scholarship elections have been suspended since 1939. Normally candidates must be between the ages of 19 and 25, but

first student debating team. He was one of the founders of the Gilbert and Sullivan society, an orpublic schools, and in 1898 received ganization of students, faculty, and townspeople, that annually presented Gilbert and Sullivan operetta from 1932 until 1938. He wrote both the words and music to "New Hampshire Hymn," one of the outstanding University of New Hampshire songs.

He was a member of the Yale Library association, the American Association of University Professors, the New Hampshire Association of Teachers of English (president, 1924-25), Lambda Chi Alpha, Phi Kappa Phi, and was secretary of the UNH Liberal Arts Executive committee for many years. He belonged to the Quadrangle club and the Elizabethan club and was a member of the Durham Community church.

Du Pont Digest

Items of Interest in the Fields of Chemistry, Engineering, Physics, and Biology

New Plastic Resists Heat, Acids, Electricity

"Teflon," Product of Group Research, is Solving Difficult Problems in Radar,

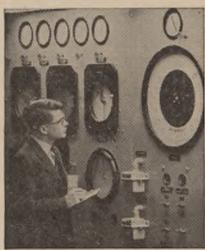

Television and Industry A group of Du Pont research men a particular type. These men found what they were after; but, as so often has been the case, they found something more—this time an industrial plastic whose unique qualities make it invaluable in many fields.

During the study, the chemist in charge proposed a route to the synthesis of HCF₂CF₂Cl via tetrafluoro-ethylene, CF₂=CF₂. In working with the latter, a chemically reactive gas boiling at -76.3C./760 mm., it was learned that it polymerized to form a resin having unusual properties.

After evaluation by organic and physical chemists, physicists and electrical experts, a suitable process for the difficult manufacture of this product was worked out by the chemists in collaboration with chemical and mechanical engineers.

Structure and Properties

"Teflon" is made by polymerizing gaseous tetrofluoroethylene to give a solid, granular polymer:

Controlled at this one panel is all the equipment for producing the polymer from which is made "Teflon."

"Teflon" (right) resists boiling acids and solvents to a degree unrivaled by other plastics.

The fluorine atoms in the molecule impart exceptional properties of resistance to heat and chemicals.

"Teflon" has unusual heat resistance. Having no true melting point, Teflon" decomposes slowly to give the gaseous monomer and a few other gaseous fluorine derivatives at around 400°C. Under certain conditions small amounts of fluorine-containing gases have been observed at temperatures above 230°C. Because of its heat resistance, gaskets and wire insulation for jet engines are now made of this plastic. It is also used in aircraft ignition systems near sparkplugs and in high-temperature heating systems.

The chemical resistance of "Teflon" is such that it withstands the attack of all materials except molten alkali metals. Boiling in acid (aqua regia, hydrofluoric acid or fuming nitric acid) will not change its weight

More facts about Du Pont—Listen to "Cavalcade of America," Mondays, 8 P.M. EST, on NBC

or properties. For this reason it may have wide use in such applications as tubing and piping for chemical plants and acid-distillation equipment.

Because the dielectric loss factor is extremely low, even at frequencies up to 3000 megacycles, it is an excellent insulating material for currents of ultra-high frequency. Its heat-resisting and aging qualities suggest immediate uses as a dielectric in coaxial cables for color television, and in radar and power fields.

Forms of "Teflon" Available

By use of special techniques the new plastic can be extruded as rods, tubes or wire coating. In general, its extrusion rates are low in comparison to other thermoplastics because

of its resistance to softening.

More facts about "Teflon" are in

Du Pont Plastics Technical Service Bulletin No. 13. Send your request to 2521 Nemours Bldg. Wilmington 98, Del. "Teflon" is one of the many products which represent the work and skill of Du Pont men, who, working as a team, contribute toward a better America for you and all of us.

Questions College Men ask about working with Du Pont

"WILL I STAY IN ONE FIELD AT DU PONT?"

The first position of a new man at Du Pont is based on his expressed preference and an estimate of his aptitudes and abilities. Subsequent work may be in the same or other fields, as openings present themselves in research, production or sales divisions. Keynote of Du Pont per-sonnel policy is promotion from within on a competitive merit basis.

RAGONESE PACES

(continued from page 1)

ered a N. H. fumble. After two unsuccessful tries, Ed Becker, Ram back, found his mark and flipped one to Leon Golombiewski on the two-yard line and the R. I. end scored standing up. The attempted conversion failed. It looked as though the Ram had acquired the punch to score and were ready to make it their ball game. After the kick-off, they stopped the Wildcats cold. But their own play was slowed and they were forced to kick to the N. H. 32-yard line. From there on the first play, Carmen Ragonese broke away from all would-be tacklers and tied the score with a thrilling 68-yard run. N. H. did not make the point but the situation had changed and it was anybody's ball game now.

N. H. kicked off and the Rams were held as their passing became spotty. They went into kick formation on their own 42-yard marker. When the ball was passed, Bob Mikszenas, substitute end for UNH, broke into the Ram backfield and blocked the kick. He continued on and recovered the ball on the R. I. two-yard line. Ernie Bastinelli attempted to go through the Ram line but was injured on the play and had to be taken out of the game. Then, Maurice Bouchard drove over for the second Wildcat touchdown. Again the try for the point was not good and the score stood

The Rams tried to even the score by taking to the air. They moved from their own 42 to the UNH 11 in a series of short passes. Twice this drive seemed to bog down, the first time a Wildcat player tipped a pass but Ben Curtis of R. I. speared the ball just before it hit the ground on the 11-yard line. Then a Pino (Capt.) l.e. McLaughlin bad pass from center put the ball Makris back on the 23 yard stripe. Becker's passes connected to the eight and then he threw one into the end zone Rainey but Ragonese intercepted the pass Matthews and ran untouched for 101 yards to Seawards make the score 18 to 6. This run, Mather coming so soon after his previous O'Connell dash, was too much for Ragonese Merkwan and he was near exhaustion as he Bouchard

was helped from the field. Al Swekla converted to make the score 19 to 6 as the half ended.

The third period was uneventful as neither team was able to click for a score and play see-sawed back and forth.

E. Rainey, Guard

After a few minutes of the fourth quarter, UNH fumbled again and the Rams recovered on the Wildcat Vincent Montecalvo, who had been the mainstay of the Rams running attack, went to the 15 on successive plays and bulled across the goal line for the second R. I. score. The try was unsuccessful and the Wildcats led 19 to 12. Rhode Island pressed to score but excellent defensive playing in the N. H. line prevented them from scoring. John Gage intercepted a Ram pass on their 34. George Willey climaxed a Wildcat drive by slashing into the end zone from the nine-vard line. The try was not good and there was just time for a kick-off before the game ended with UNH on the long end of a 25

Food for Thought No Joke, Brother

Two GI's at the University of Texas have struck pay dirt while resuming their war-interrupted collegiate lives. Undaunted by the problems tossed in their faces as they doffed khaki, they felt that their experience points the way for other GI's faced with postwar prob-

Girl Originated Idea

Principal credit, however, should really go to pretty, 19-year-old, Chinese-born Morgia Howard, a Zeta Tau Alpha and a Junior at the university. Miss Howard's father, an Army career man, is colonel in the Quartermaster Corps.

Morgia, it seems, had for some time been playing with the idea of providing night snacks to the students, a food pickup during evening studies. Studious Texans, she decided, were pretty hungry by the time they reached trig or chemistry, and they needed this energy-builder to hold them until next morning's breakfast.

As a result, she contacted two ex-GI's, themselves playing with a similar idea, and joined forces. 'Night Snack" was born, a firm specializing in the preparation and delivery of toothsome sandwiches and milk. Since there are several get "food messengers," and today a dozen of them ply regular routes and sorority houses and dormitories, carrying baskets of ham,

Perkins Tries Out With Olympics

Don Perkins, president of the Student Council, who has been trying out with the Boston Olympics hockey team has survived every decided that he will stay to finish his schooling. Don is a senior and will graduate this year.

Last year Don was a member of the Needham American Legion hockey team which won the Boston Industrial League championship. He intends to play with them again this year if he can arrange it so as not to interfere with his studies.

Don, who hails from Lynn, Mass., was a star in high school there and captain of his team at New Hampton Prep School. In 1939 he captained the frosh here at the university, and in 1942 was captain of the varsity hockey team.

He served with the 8th AAF during the war going on 25 missions over Germany as a bombardier. Don must be in a rut for he also made captain while serving with the armed forces.

ATTENTION BIFF! WE'RE LOADED

The following excerpt was taken from the Beacon, campus publication at Rhode Island State College. It was written previously to last Saturday's game. Here goes:

"New Hampshire University's powerful Wildcats will be the opposition for the Rhode Island State College football team at Durham, N. H., on Saturday. The Rams and the Wildcats haven't met on the gridiron since 1942 when the New Hampshire team eked out a close decision.

"Reports from Durham indicate that the Wildcats are loaded this year and Coach Bill Beck's charges are in for a rough afternoon." (Were they kidding?)

ment occupied by Tallal and his wife. Morgia skips from her classes to the kitchen, supervising the preparation of sandwiches, and, more often than not, taking a hand in slicing and buttering them as well as setting out the paper cups. Every square foot of space must be utilized to accommodate sandwich paraphernalia and thousands of paper cups. The fact that nested paper cups can be stored in great quantities in a small amount of space is mighty helpful in this business. "It is the best guarantee of nealth insurance we can give the students," are Morgia's thoughtul words in explaining the fact that only sanitary, single-service cups are used by "Night Snacks" in catering to the students.

STUDENTS WELCOME

(continued from page 1) has returned to campus with two mobile food dispensaries, the second truck being ready for business n approximately a week. The exact locations of these trucks has

not yet been determined, but will

await the settling of the campus opulace.

John ("Rum") Remington and Link Soldati, two UNH student veterans, have opened the "Snack Shack" on the Dover road opposite the Town Hall and this side of the Gulf Service Station. Remington, who played football for Norwich in 1942, transferred to UNH last February and is a sophomore Bus. Adm. major. Before being sent overseas, he was a bombardier instructor in Florida. Both he and Soldati are married. Soldati was gunner on a B26 in Italy and is now second-semester freshman majoring in Physical Education. The "Snack Shack" features an unfailing supply of meat - good, red meat and will be open from noon till one

The university's contribution to the satisfaction of student appetites s the unique "Student Canteen" in the Commons cafeteria. A juke box brings dancing legs to life while food and drink in abundance are at hand.

Durham Bull

Ernie Rainey deserves more than a nod for his play thus far this season. He gives that line plenty of

Captain Ralph Pino, broken nose and all, will repeat as leader this week against Maine.

There was a big hole in the line with Joe Znaidowsky side-lined for the season with a knee injury. Joe was a bear on pass defense and he would have done much to bottle up Mr. Ed Becker of the Rams.

This Saturday the Orange and Black of Princeton will trot out for their 600th contest since they played Rutgers on a meadow some sixty-seven years ago. The Wildcats will be starting their 365th.

UNH grid history goes back to 1893 when a group of students went to Dover to try the new sport of football. Since then contests have been played with such units as: Dover YMCA and Portsmouth A.A., even mighty Army was defeated in 1921 by a score of 10 to 7.

The next year the Cadets trounced the Durhamites 33 to 0. That was a great Army team but they fell under the battering of the Four Horsemen of Notre Dame in a game that was free to the public. Modern football did not come into the realm of Big Business until two years later when the same two teams battled before 50,000 fans in the Polo Grounds.

Gyms Become Men's Dorms

Housing history is repeating itself this week at the University of New Hampshire as students return for classes. More than five hundred men, scheduled to occupy newly-constructed Engelhardt, as a result of a delay in the installation of heating fixtures.

ago, in 1916, when men assigned to any day now." live in Fairchild Hall, then under construction, were placed temporarily in the basement of DeMeritt Hall. This year students concerned will live in New Hampshire Hall days, such stories as this run in the and the University Field House until the new heating plants are completed on or before October 15.

Hampshire Hall, the women's gymnasium, are 338 men originally scheduled to occupy Hunter and Engelhardt Halls. The Field House will serve as barracks for the 169 men who will reside in Gibbs Hall. Almost seventy married veterans, sans wives and children, are living in the Field House until the College Road apartments are completed.

Because there are no study facilities in either the Field House or New Hampshire Hall, Morrill Hall, one of the largest classroom buildings on the campus, will be open in the evenings and used as a study

Ground for the new dormitories was broken on March 20 and since that time the university has been rushing the buildings to completion against the odds of priorities, labor shortages, transportation, and price uncertainties, climaxed by the wettest August in history.

UNH will celebrate Homecoming with a football game vs. Springfield on October 19th.

Arrangements were

SHARPE PLATTER CHATTER

Back again with a weekly listing of the best of the new releases in stock at "The College Shop" with hopes that it may be of service in helping you to select your recorded music.

And, to start the ball rolling, Frank Sinatra's latest "The Things We Did Last Summer," and "The Coffee Song." These sides offer sufficient change of pace to enter it on anyone's list. The first is a ballad made for Sinatra and is carried off well. The reverse has mighty clever words which destine it for the top ten.

"Beaumont Ride" by Harry James features a band riding in a solid groove plus two choruses of that famous horn. The age-old question, "Why Does It Get Late So Early?" is asked by Buddy Di-Vito backed by a well-balanced outfit. More trumpet, and an alto sax.

A new band accompanies Dinah Shore on "You Keep Coming Back Like A Song" and "The Way The Wind Blows." Two ballads sure to please. The steady Dinah sounds as relaxed as ever.

Red Allen's small combo drives like mad on Red's original "Count Me Out." Showcased are Higgin-botham's sensational tram, sax work supreme, and Red's trumpet. On "If It's Love You Want," a vocal by Allen and more Higgy. Who is that alto man?

The best Dorsey band in months offers 'hopped-up' versions of "The Song Is You," and "The I'll Be Happy." Top string-bass work, and high-calibre trumpet spark both. Rhythm is excellent, and B side made for dancing.

Tex Beneke and The G. M. Band romp through "The Woodchuck Song" with Tex and The Crew Chiefs taking vocal honors. Lillian Lane sings the new pop, "Passe."

The album of the week is "Songs of Cole Porter" featuring Rise Stevens, who displays unusual versatility in her renditions of songs such as "I've Got You Under My Skin" and "What Is This Thing Called Love." The orchestra directed by Sylvan Shulman contributes full-bodied arrangements to the six excellent sides.

More of the latest records next week. Remember, if it's in Platter Chatter it's in stock.
